SEVENTY CENTS PER MONTH

California Soldier Bonus Law, Solon's Plan

BILL WILL CALL FOR MAXIMUM PAY OF \$250

Republican Solon's
Daughter First Bud
Of Congress Colony

DOROTHY MONDELL

The season's first debutante in Washington from Congressional circles is Miss Dorothy Mondell, daughter of Representative and Mrs. F. W. Mondell of Wyoming, who has just made her debut.

OHIO STATE'S GRID WARRIORS ARRIVE AT PASADENA FOR FRAY

PASADENA, Dec. 24.—Ohio State university's big ten champion football team arrived here today, accompanied by newspaper men, trainers and coaches, and was given a rousing reception by alumni and former students of the Columbus institution. The Buckeye players were rushed to the Hotel Raymond, which will be their headquarters until after the game with the University of California on New Year's day.

CHRISTMAS FESTIVAL OPENS AT PETALUMA

PETALUMA, Dec. 24.—The annual Christmas festival being given under the auspices of the Chamber of Commerce opened with a grand feature of parade toys and the festival will continue until Christmas eve. The "Christmas Playlet" that was to have been a part of the program has been eliminated and "The Dance of Toys" was given today under the direction of Mrs. Hall Weston. Tomorrow another toyland parade will take place and the committee in charge expects to have real live babies entered. A prize is to be offered for the best decorated carriage.

KILLS IRISH HOPE OF CHRISTMAS PEACE

LONDON, Dec. 24.—Hope for a Christmas peace in Ireland was lost today. The chance for definite action disappeared with the proroguing of parliament by King George. King George, after giving assent to the home rule bill passed by parliament, referred feelingly to the Irish situation, hoping the bill would mean a return to constitutional government. King George also declared the league of nations had shown its value.

DAIRMEN BUY COTTONSEED
EL CENTRO, Dec. 24.—It's an ill wind that blows no good and dairymen of Imperial valley are purchasing cottonseed in great quantities to feed to their dairy cows. Excellent results in increased butter production are being reported. Cottonseed is now selling for \$16 a ton. At one time during the season it was as high as \$23 and has averaged around \$20 for the last two months.

S. F. State Senator Will Present Measure to Coming Legislature

SACRAMENTO, Dec. 24.—A soldier's bonus bill for all participants in the world war will be presented to the California legislature when it meets here in January by Senator H. S. (Wild Bill) Scott of San Francisco.

The bill to be put up by Scott will be similar to the one adopted by the state of New York. It will provide a bond issue to be voted on by the people of the state to furnish a bonus of \$10 a month for each month or major fraction thereof, that a veteran was in active service.

Not To Exceed \$250
The whole sum of the bonus shall not exceed \$250, representing 25 months service.

No person, however, shall be entitled to such payment of allowance who was an officer above the rank of captain in the army or marine corps or above the rank of lieutenant, senior grade, in the navy.

Senator Scott is preparing his bill at present from the bill adopted by the New York legislature.

Help for Disabled
This bill calls for the establishment of a commission to distribute the bonus and calls also for a special fund to be administered for the "amelioration of the condition" of residents who were injured or who suffered disability while in military or naval service.

Senator Scott will also introduce a bill for the appropriation of \$100,000 to complete the state armory at 14th and Mission streets, San Francisco.

"30" BULLETINS

The Register will not be printed tomorrow.

ROME, Dec. 24.—Fiume today prepared for an expected clash with Italian regulars.

Foreigners were given three days to leave the city so that they might not consume food needed by the fighters.

D'Annunzio has militarized the municipal and public workers, supplied them with weapons and arranged to throw them in any fighting that may develop.

KINGS RIVER CANAL SYSTEM APPROVED

FRESNO, Dec. 24.—Work of measuring the Kings river and canal system, which was begun in 1918 by the State Water commission, was approved at a meeting of the Associated Canals of Kings river held in the city hall. The meeting voted unanimously to continue the work, which includes gathering engineering data on the available water, the amount used, and the amount which will be deposited for storage in the Pine Flat reservoir.

A CHRISTMAS PUZZLE
COLUMBUS, Ohio, Dec. 24.—Officials are trying to figure out whether its the Christmas spirit or an attempt to beat the income tax that broke the record for weddings and prevented divorces in the last three weeks.

DETECTIVES QUIZ SUDOW SUSPECT AT PLACENTIA COURT QUASHES B. B. INDICTMENTS

JUDGE FREES 3 IN COAST SCANDAL

Dismissal of Charges Against Coast Players Big Surprise

LOS ANGELES, Dec. 24.—Superior Judge Willis today quashed indictments against W. B. (Babe) Borton, Earl Maggart and W. G. Rumber, baseball players involved in the Pacific Coast league scandal. Judge Willis declared the indictments did not allege a criminal act. The three were charged with conspiracy in connection with the alleged "throwing" of the 1919 coast league pennant to the Vernon club. Borton formerly was first baseman for Vernon, Maggart and Rumber were Salt Lake outfielders. Dismissal of the indictments came as a great surprise. They were the result of an exhaustive inquiry by the grand jury. The action of Judge Willis came on the heels of a demurrer filed by the counsel for the accused players, which ridiculed the charges and recited that no crime had been committed.

CHRISTMAS FOR HORSES
MILWAUKEE, Wis., Dec. 24.—Poor horses of Milwaukee are going to get a good Christmas feed. Miss Elmer Cowler arranged to give all of the old nags a Christmas meal.

Good Tidings of Great Joy

And there were in the same country shepherds abiding in the field, keeping watch over their flocks by night.

And lo, the angel of the Lord came upon them, and the glory of the Lord shown round about them, and they were sore afraid.

And the angel said unto them: "Fear not, for behold, I bring you good tidings of great joy, which shall be to all people.

"For unto you is born this day in the city of David a Savior, which is Christ, the Lord.

"And this shall be a sign unto you; ye shall find the babe wrapped in swaddling clothes, lying in a manger."

And suddenly there was with the angel a multitude of the heavenly host praising God and saying:

"GLORY TO GOD IN THE HIGHEST, AND ON EARTH PEACE, GOOD WILL TOWARD MEN."—St. Luke.

White House Throws Cold Water on Debs Pardon Report

WASHINGTON, Dec. 24.—President Wilson has not changed his mind regarding a pardon for Eugene V. Debs, it was said at the White House today.

LONDON TO REVIVE ANCIENT YULETIDE CHRISTMAS CUSTOM

LONDON, Dec. 24.—Great Britain, not content with a mere pre-war Christmas celebration tomorrow, begins celebration of a pre-victorian holiday.

Business is to be suspended for three days. The curtailment of communication was the nearest approach to the olden days when telegraph was unknown, the cable was not even a wild dream and newspapers were not necessarily bearers of news.

With no interest in what transpires in the rest of the world in the next three days, Great Britain was supposed to settle into old fashioned yuletide, with blazing logs and warming drinks to aid the merriment.

Transportation by rail, steamer and truck was ordered confined to the most necessary business. No mail will be delivered and telegrams will be distributed only at certain hours. Newspapers will be idle Saturday, Sunday and Monday.

Reports of Irish difficulties, complications in France and the near east, unemployment and all other troubles confronting the government will cease for those three days to worry the ordinary citizen.

LAWYER HITS HAMON WILL STORY

Search Fails to Reveal Document Leaving \$4,000,000 to Woman

KANSAS CITY, Mo., Dec. 24.—The oft-repeated claim by friends of Clara Smith Hamon, who is to appear today before a justice of the peace in Ardmore, Oklahoma, to answer to the charge of murder in connection with the death of Jake L. Hamon, multi-millionaire man, that Hamon left a will in which his suspected slayer was made the heir to approximately \$4,000,000, was denied here today by Fred Ellis, of Ardmore, attorney for Hamon's widow.

Ellis explained that he had made a thorough search of Hamon's effects without finding a will. Furthermore, Ellis said, Hamon told him a short time before he was shot that he had made no will, but intended to soon.

Ellis said he was here on business in connection with the Hamon estate.

Fred Ellis is the son of C. W. Ellis, 602 South Birch street, Santa Ana. The elder Ellis has lived in Santa Ana for about five years. His son was at one time a law partner of the dead oil magnate at Lawton, Oklahoma.

ARDMORE FOLKS PREPARE TO WELCOME SUSPECT.

ARDMORE, Okla., Dec. 24.—This is home coming day for Clara Smith Hamon.

The girl fugitive who surrendered to Sheriff Buck Garrett, at El Paso, after being sought in connection with the death of Jake L. Hamon, "emerald builder," will arrive here late today.

Ardmore citizens are preparing a welcome for the girl and are ready to give her the definite assurance that a huge defense fund will be placed in her hands.

County Attorney Brown said today the girl would be released on bond immediately after her arrival. She will be allowed to waive preliminary hearing, he said.

OHIO HIGH GRIDDERS OFF FOR WASHINGTON

CLEVELAND, Ohio, Dec. 24.—The Esch Tech football team left here today for Everett, Wash., to play Everett High for the high school championship of the country. Coach William took 18 players with him and will condition them as he goes along. William said the team will be at top form for the game on New Year's day.

WELCOME CHRISTMAS QUARTET
YUBA CITY, Dec. 24.—They got a Christmas quartet at Nola Singh's house. Quadruplets, born yesterday, were warbling their yuletide carols.

Baltimore Beauty Is Held by Russian Red Army as Spy Suspect

Miss Marguerite E. Harrison, a Baltimore newspaper writer, is being held as a hostage by the Bolshevik government, according to reports to the State Department in Washington. The Bolsheviks claim she was a "spy" for the U. S. government, a charge refuted by government officials.

BERNSTORFF PLACES FAITH IN U. S. TO BRING WORLD PEACE

BERLIN, Dec. 24.—Hope that America will lead in the fight "for justice and equity in order to arrive at a sensible revision of the treaty of Versailles and reform for the league of nations," was expressed today by former Ambassador Bernstorff in a Christmas message.

"Christmas," he wrote, "is approaching for the third time since the end of the great war. Europe is still as far from a real peace as she was two years ago.

"Peace means mutual understanding and co-operation of nations. We hope the United States will take the moral lead in the fight for justice and equity in order to arrive at a sensible revision of the treaty of Versailles and at a reform of the league of nations. Otherwise bolshevism will triumph in the end."

HAD THE WRONG BOX
DENVER, Dec. 24.—A stranger with an armful of Christmas packages tried to mail them in a red box on a street corner. Two fire engines and several hose companies responded. The firemen told him where to mail his burden.

HOLIDAY SPIRIT HITS JUOGE WEST ORANGE, N. J., Dec. 24.—Judge Lander who sentenced three boys to go to bed every night at 8:30 and to forego Christmas gifts and festivities, has rescinded the latter part of the penalty.

STRANGER MAY HOLD KEY TO MYSTERIOUS L. A. DEATH, CLAIM

Los Angeles detectives investigating the murder of Mrs. Fay Sudow in Los Angeles arrived at Anaheim today and went immediately to a ranch near Placentia, to question a man said to be under suspicion of knowing something of the murder.

Up to an early hour this afternoon the detectives had not returned to Anaheim. Extreme secrecy was employed in connection with the questioning of the suspect.

The two detectives were R. S. Hamilton and Charles Jarvis. They left Los Angeles at 9 o'clock this morning.

Find Shallow Grave
A shallow grave was discovered today on the edge of the Edendale eucalyptus grove where Mrs. Sudow's body was found a week ago Sunday. It is believed this was intended as the final resting place of the victim. The murderer, it is believed, dug the grave and gave up his task before completing it, covering up the corpse with dried leaves in his haste to get away from the scene of the crime.

The man under suspicion at Placentia is said to have come to the ranch about three days after the Sudow murder and to have manifested extreme interest in the murder and to have talked a good deal about it while there.

It was considered probable, according to reports, that the man would be taken into custody and held for further investigation.

Identify Mystery
When questioned by his fellow workers, it was said, the man refused to discuss his identity or to state where he had come from.

The tip regarding the man was given directly to Los Angeles authorities. Neither Sheriff C. E. Jackson nor City Marshal Sam Jernigan, nor City Marshal Stedman of Anaheim knew the identity of the man or had any information as to what he might know.

FORMER COUNCILMAN BACK IN SAN JOSE

SAN JOSE, Dec. 24.—William T. Nolting, member of the San Jose city council in 1890, and now a millionaire with great railroad interests in various lands, arrived here recently from Brazil. Nolting was formerly postmaster at Manila and later postmaster-general of the Philippine Islands, being appointed by President Taft. He gave up that position when he became associated with General Forbes and was named general manager by Forbes when the latter was made receiver of 4000 miles of railway to Brazil. Later they became connected with railroad enterprises in China and with factory interests in this country.

GRAND JURY WORKING ON BOOTLEG CASES

WILLOWS, Glenn Co., Dec. 24.—The Willows Grand Jury, investigating alleged bootlegging in this city, continued the taking of testimony behind closed doors today. More than fifty witnesses are to be heard. A report is not expected until some time next week.

TAFT BALKS AT HARDING PLAN ON NATIONS

MARION, Ohio, Dec. 24.—The association of nations planned, as outlined by President-elect Harding, does not meet fully the ideals of former President Taft, it was intimated following a conference here today.

"I am encouraged to think that the senator is working out a practical solution which may not be wholly satisfactory to the enthusiasts to either extreme, of whom I may be considered one, but will satisfy those anxious to make progress," said Taft.

VET DROPS DEAD AFTER MAILING GIFT

SALT LAKE CITY, Dec. 24.—There is a Miss McFarland in Cary, Ind., who will receive a message from the dead, John W. Ring, World war veteran, 25 years old, dispatched a Christmas present to her by parcel post. A moment after he had passed it through to the clerk he was stricken with heart failure. He died within half an hour after being taken to the Emergency hospital. The body will be sent to Buhl, Idaho, for burial.

FRONTAGE LEASE PARLEY STILL UNDER WAY

That James Irvine is expected to return to Santa Ana for a short period during the holidays and that confidential negotiations are now pending between Irvine and Lew H. Wallace, secretary of the Orange County Harbor commission, regarding the leasing of a 1000-foot frontage on the bay to the Craig Ship Building company of Long Beach, was learned here today.

Irvine, earlier in the week, advised Wallace by telegraph from San Francisco that he will be here to go over the Craig proposal and make a thorough first-hand study of the proposition. Since the publication of Irvine's letter in which he demurred at allowing Craig to have a fifty-year lease on the harbor frontage, Wallace started confidential negotiations with Irvine looking to the completion of the deal.

FEAR HEAVY TOLL IN JAPANESE EARTHQUAKE

TOKIO, Dec. 24.—Loss of life is expected to be heavy as officials began checking casualties in the worst eruption in the history of Mount Asama.

A terrific explosion Wednesday showered smoldering ashes over a wide territory. It was followed by a great display of smoke and flame and a number of shocks. Sparks from the crater started a great fire near Karuzawa, and set ablaze a village at the foot of the mountain.

SEAL BEACH INN— SUE DOVER PIANO

A suit against the Seal Beach Inn and its proprietor, E. C. Blankenship, was filed today in the Superior court by the Baldwin Piano Company, of Los Angeles.

The piano company alleges that Blankenship refuses to give up a piano worth \$850, which was leased to him when he took a lease on the inn in 1918. The lease on the piano ran out some time ago, according to the Baldwin Company's complaint. The company is asking damages of \$850 for the value of the piano, \$150 for depreciation, \$150 for attorney fees, and costs of the suit.

STEAL TRUCK LOADED WITH YULETIDE GIFTS

CHICAGO, Dec. 24.—Christmas presents, said to be valued at several thousand dollars, were stolen by three armed bandits who drove away a delivery truck from a large department store after robbing the driver of \$30.

The robbery brought to a close a day during which numerous holdups and robberies were added to Chicago's growing list of holiday crime activities. Included in the day's robberies was the hold-up of a saloon by six automobile bandits, who obtained \$900.

ODD FELLOWS PLAN BIG CHRISTMAS FETE

Members of the Odd Fellows and Rebekah lodges of this vicinity and their families are to have a big Christmas tree and entertainment at Odd Fellows' hall tomorrow night. A special invitation has been extended to all Rebekahs and their families. All visiting members are invited.

HARLEM RIVER SITE FOR BIG BOAT RACE

NEW YORK, Dec. 24.—The Child's cup race, the classic of collegiate rowing will be decided next spring on the Harlem river here, according to Charles H. Mapes of the governing board of stewards. By an agreement the race will be rowed on Lake Cayuga in 1922 and on the Schuylkill river in 1923.

The naval academy crew, winner of last year's race and the world's champions will not be invited to compete but probably will row in the Poughkeepsie regatta.

HER NAME WAS ONO; DIDN'T SAY "O NO?"

Albert S. Kimura, 29, of Oakland, editor-in-chief of The Japanese-American, a newspaper with a wide circulation among Japanese of the coast, and pretty, blushing Miss Kiyoko Ono, 28, a motion picture actress of Los Angeles, were on their honeymoon today, following their marriage by the Rev. John Oliver, pastor of the First Methodist church.

"Did she say 'O no?'" Clerk of the Court E. R. Abbey, who made out the license, asked Kimura.

"O no. Ono did not say, 'O no,'" was the reply of the editor, and the tiny laugh of the little bride-to-be by his side gave weight to his statement.

MANY PERSONS DIE IN RAIL ACCIDENT

LONDON, Dec. 24.—A Central News dispatch from Helsinki, Finland, says that several hundred persons were killed or injured in a railway accident near Petrograd. The accident was due, it is stated, to the overcrowding of a train, but details are lacking, the dispatch adds.

CHRISTMAS CHECKS FOR HEROES OF WAR

WASHINGTON, Dec. 24.—War Risk Bureau clerks rushed work on mailing out checks to former service men or their beneficiaries this month as a measure of Christmas cheer, getting out a total of \$45,540 December payment checks for more than \$15,000,000 up to Dec. 15, it was announced by the bureau.

On December 20 the bureau had 328 active accounts, it was said, and had paid out since its operations began a total of \$331,600,958.

LINDSAY PLANS CITY OWNED GAS PLANT

LINDSAY, Dec. 24.—Provided the price set by the gas company is fair, the Lindsay board of trustees will buy the gas plant and operate it for the city. It is asserted that if this deal falls through the Trustees will put in their own system. Operation of the Lindsay Community Ice Plant last summer proved a decided success, and the rate was lower than in any nearby town. Lindsay residents believe that co-operation and community projects will solve many civic problems.

FAMILY OPTIMISTIC
NEW YORK, Dec. 24.—The wife, son and daughter of Lieut. Stephen A. Farrell, aviator lost in the naval balloon which disappeared December 13, are so optimistic of his safe return they have prepared the usual Christmas tree in their home here.

PACKAGE FOOLS COP
NEW YORK, Dec. 24.—Warren McConhie, former mayor of Troy, N. Y., hurrying to his home with a package here, was held up by a cop and forced to open the bundle. It contained Christmas tree ornaments.

BIG BANK THEFT PLOT IS BARED AT VALLEJO

VALLEJO, Cal., Dec. 24.—Startling disclosures of an alleged plot to rob a bank at Red Bluff, Cal., were made at the court martial today of R. G. Scott, one of six men who escaped from the Mare Island naval prison barracks last September.

Scott, after pleading not guilty to seven counts preferred against him, broke down, it was declared, and admitted that he and his five companions had planned to go to Red Bluff after making good their escape and there hold up a bank.

JURY IN ARNSTEIN BOND CASE DISAGREES

WASHINGTON, Dec. 24.—The jury trying Jules W. (Nicky) Arnstein and others on charge of bringing stolen New York securities to Washington reported it was unable to agree and was discharged today.

DIVORCE FOR CHRISTMAS
CHICAGO, Dec. 24.—Bruce C. Samper received a Christmas present of a divorce. He sent word to Judge Sabath he was dying and the only thing he wanted before his death was a legal separation from his wife. The judge gave it to him.

CHRISTMAS WOE FOR TONY
ST. PAUL, Minn., Dec. 24.—Tony and his Christmas hootch are separated. Thieves entered his home and overlooked a safe containing \$1,077 but walked away with Tony's last quart.

FARM BUREAU LEADER OUTLINES PLANS FOR BIG GERMAN CREDIT

WASHINGTON, D. C., Dec. 24.—Plans for a vast credit to Germany were outlined today by J. R. Howard, president of the American Farm Bureau federation, before a joint meeting of the senate banking and agricultural committees.

Howard, who said he represents about 1,500,000 farmers throughout the country, declared the farmers favor extension of credit to any foreign nation needing American exports, whether it be Germany, France or Russia.

"If the revival of the war finance corporation is approved by the president," Howard said, "This organization could be used as a medium for this foreign trade."

MOTORCYCLES, ALSO BICYCLES, STOLEN

Two motorcycles and three bicycles have been stolen during the last few days, according to reports on file with City Marshal Sam Jernigan this morning. As follows:

T. J. Neal, 412 E. Fourth street, an Evans motorcycle, number 21609, black frame; also an American bicycle, blue, with yellow trimmings.

Bert Clement, 914 W. Chestnut street, Indian motorcycle, stolen yesterday from the Griffith Lumber yards.

Glen Huddleston, 421 East Walnut street, Racer Standard bicycle, black wheel with green trimmings.

Joseph Shaff, 115 Sycamore, Miami, blue and white bicycle, stolen yesterday while it was standing in front of the First National Bank.

City and County

Christmas day, the stamp and general delivery windows of the post office will be open from 10 a. m. to 12 noon. The city and rural carriers will make one delivery. No parcel post will be delivered.

The many friends of Mrs. D. E. Newton, who for about a year lived at 811 South Main, were saddened today by word of her death at the home of her son, R. A. Newton, in Corona. Mrs. Newton passed away Wednesday evening. The deceased was the mother of Mrs. C. E. Desarry of this city. Mr. and Mrs. Newton were building a home at the corner of Buffalo and Main streets, Santa Ana, and had hoped to occupy it within a short time. Funeral services will be held Monday at Corona. Interment will be made in Fairhaven cemetery, Santa Ana.

Appropriate exercises will be held in connection with the Christmas tree celebration scheduled for tonight at the First Christian church.

S. C. Dawson, a gravel hauler, 1518 Durant street, today reported the loss of a corduroy coat from his wagon in the Santiago river bed near the Glassel street bridge at Orange. A checkbook of the First National Bank of Santa Ana was in the pocket of the coat. Two of the blank checks in the book had been made out. One to Mr. Carse, was for \$35 and the other for \$10, was payable to Dawson himself. Dawson offered a liberal reward for the return of the coat and checkbook.

Following a successful musical season in New York city, Mrs. Eleanor H. Woodford has returned to Santa Ana and will spend the winter with Mrs. C. J. Woodford, 1022 South Main street. Mrs. Woodford has been in New York since last July, during which time she has filled many engagements with prominent musical organizations. Her solo work with the New York Philharmonic orchestra, under the direction of Josef Strinsky, in Carnegie hall, November 11, and before the St. Cecilia club in the grand ball room of the Astor hotel on December 11, was said to have been especially well received. Mrs. Woodford does not plan to return to the East until next fall, but plans to fill a number of engagements on the West coast before that time.

SALE OF CHRISTMAS SEALS TOTALS \$900

Announcement was made today by Miss Hazel Bemus, in charge of the Red Cross Christmas seal sale, that \$900 had been realized in Santa Ana from the sale of the stamps. There are \$800 worth of stamps still out, said Miss Bemus, who is of the opinion that the sales will total \$1000 before the close of the Christmas season.

The stamps are for the purpose of securing money to aid the Red Cross in the combating of tuberculosis.

SUSPECTS COLORED GENT

KANSAS CITY, Mo., Dec. 24.—Dr. L. C. Johnson suspects some "colored gentleman" plans to make a Christmas feast on his trained goose. For the return of his educated fowl the doctor offers the biggest turkey in Kansas City.

ber 11, and before the St. Cecilia club in the grand ball room of the Astor hotel on December 11, was said to have been especially well received. Mrs. Woodford does not plan to return to the East until next fall, but plans to fill a number of engagements on the West coast before that time.

Wednesday was the shortest day of the year, and yesterday was so close to it that those who have to get up early in the morning could see no difference. For the next ten days there will be only fractions of a minute difference in the time for the rising of the sun, but by the last of January people will notice that the days are lengthening. Wednesday the sun rose at 6:55 o'clock and set at 4:48 o'clock.

George C. Briggs, police judge of Greeley, Colorado, is a guest for a week at the home of his cousin, J. A. Parks, and Mrs. Parks, 508 Fruit street. Parks was formerly a resident of Greeley. Justice Briggs and Park called on Justice of the Peace John B. Cox this morning. The two administrators of justice spent a very pleasant hour talking over and comparing the laws of the two states. Briggs has his own system for handling speeders, and is known, according to his cousin, as "Dollaramile" Briggs, in Colorado.

With the original goal of \$600 already passed and the new goal of \$1000 already in sight, members of the First Methodist church today predicted that their fund for the starving Chinese and the starving children of Europe would soon pass the \$1200 mark and that it might reach \$1500. At a Christmas entertainment given last night by members of the Sunday school of the church \$243 in cash was cleared for the benefit of the fund. Donations from many other sources are expected rapidly to swell the fund greatly.

FORGERY CHARGE IS FACING MAN ARRESTED ON CHECK COMPLAINT

That Ollie Shetie, held at Long Beach on a bad check complaint, and also wanted here for an alleged bad check given to J. J. Schmitzer of Newport Beach, is to be charged with forgery as well as passing a no-fund check, was the statement of City Marshal J. H. Porter, of Newport Beach, today.

The check passed by Shetie, according to Porter, was made payable to J. A. Allison, a Newport Beach man, and signed by a fictitious name, "Milton Dergen." The alleged forgery was committed, according to Porter, when Shetie signed Allison's name in endorsing the check. The check was for \$15.

Shetie is being held at Long Beach, but in event that a conviction is not obtained there he will be turned over for prosecution on the charge here.

BOY NEAR DEATH AS RESULT OF CRASH

Clare Smith, 14-year-old son of Mr. and Mrs. Boyd Smith, and cousin of Mrs. Ed Thwing, wife of the city marshal of Fullerton, was dangerously injured last night at about 8 o'clock when a motorcycle he was riding ran into a Ford speedster driven by Conrad Campbell, of the West Coast Oil company, about two miles from Brea on the Brea-Olinda road.

The boy's leg was broken in fifteen places and was shattered so badly that an amputation between the knee and thigh was necessary. He also suffered a basal fracture of the skull. A piece of bone torn from his leg was found this morning near the scene of the accident.

The boy was rushed to a hospital at Fullerton, where he was given surgical attention. A boy of about the same age named Dwyer was riding the motorcycle behind young Smith but escaped with a few minor scratches. He was able to be on the streets of Brea after the accident.

Campbell was not injured. The accident resulted when the boy, who was approaching the rear of a truck, swerved to pass the truck and did not see the speedster until too late to avoid striking it in a head-on collision. Smith regained consciousness today and showed signs of improvement. His physician said Smith had an even chance of recovery.

WHITE HOUSE PLANS FOR QUIET CHRISTMAS

WASHINGTON, Dec. 24.—Preparations were made at the White House for another quiet Christmas celebration because of the condition of President Wilson's health.

Distribution of turkeys to all White House employees by the president, a precedent first established by President Arthur, was begun, nine barrels of turkeys having been received for the purpose. The usual decoration with holly and greens also was in progress.

Miss Margaret Wilson, daughter of the president; Dr. Stockton Astor, brother of the president's first wife, and a few of Mrs. Wilson's immediate relatives, will be at the White House employees by the president. The president's other daughters, Mrs. Francis Sayre and her three children and Mrs. W. G. McAdoo and her two children will not be here.

On account of the absence of children, there will be no Christmas tree at the White House. The president and Mrs. Wilson are expected to follow the Christmas Day custom, however, and distribute gifts personally to children along the road, which the president followed when in good health on his visits to a golf club in near-by Virginia.

REACH SETTLEMENT IN LOVE BALM SUIT

LOS ANGELES, Dec. 24.—A \$100,000 alienation of affections suit brought by O. C. Kuensel against Robert M. Hicks, a millionaire hotel owner of Savannah, Ga., scheduled for hearing March 7, has been settled out of court, it became known today. Kuensel, a traveling salesman, had charged that Hicks, despite his 60 years, stole the heart of Mrs. Kuensel, who is 23, by lavishing gifts on her and taking her to places of amusement.

An answer, filed by Hicks made a sweeping denial of the allegations. He admitted, however, he saw Mrs. Kuensel once in San Francisco. The alleged alienation is said to have taken place in Venice, Calif.

FREEHOLDERS AT FEAST DISCUSS S. A. CHARTER

At the "duck dinner" given at the Elks' grill room last evening by W. L. Grubb, chairman of the board of freeholders that framed the proposed city charter, all members of the board were "on the job" except George S. Smith, who was unable to attend, being in San Francisco.

Following the dinner, which was thoroughly enjoyed, tentative plans were made for a campaign in behalf of the adoption of the proposed charter at the special election, to be held February 21, 1921.

W. B. Williams, cashier of the First National Bank, was appointed chairman of a campaign committee, the other members of which are F. P. Nickey, E. E. Vincent, H. J. Forgy and J. P. Baumgartner. Chairman Williams was especially charged with the duty of enlisting the support of the Rotary Club; J. P. Baumgartner is to present the matter to the Kiwanis Club; F. P. Nickey will do likewise as to the M. & M. Association; E. E. Vincent will endeavor to enlist the active interest of the Chamber of Commerce; and H. J. Forgy is to take up the proposition with the women's organizations of the city.

The campaign will be shaped as it progresses, but at present it is intended to hold a series of public meetings in February in order that every phase of the charter proposition may be fully presented to all voters.

Had All the Fixin's

And now to get back to that "duck" dinner—which turned out to be a venison and turkey dinner, with all the "fixin's."

The menu cards were real works of art, being decorated with pen and ink caricatures of the guests by Mr. Grubb's son-in-law, Hans Wagner.

The bill of fare also was something of a joke; that is, the way it read, not the way it tasted. Here is the way it read, but you'll have to guess how it tasted:

Menu
City Water Works Home Brew
City Manager Cocktails
Health Department Bouillon
Wild Duck a la Grubb
Venison au Colorado
Judicial Salad
Relishes en Police Dept.
Freeholders Beverages
Desert a la Referendum
Fire Department Snokes

The venison actually came from Colorado, and part of it was elk. The game had been killed by Mr. Grubb's nephew, the meat roasted by his sister and shipped to him in sealed jars—and it certainly was delicious.

Host Wouldn't Tell

The genial host didn't tell where he got the "duck," which looked and tasted so much like turkey, but since his nephew and sister provided the venison, and his son-in-law the menu cards, it is fair to presume that other relatives raised and roasted the turkey. Nothing like having generous relatives when it comes to providing a dinner for fifteen hungry buskies like that bunch of freeholders!

Those who partook of Mr. Grubb's lavish hospitality were: F. P. Nickey, W. B. Williams, George Minter, A. N. Zerman, J. P. Baumgartner, E. E. Vincent, J. E. Liebig, J. H. Rankin, D. N. Kelly, H. J. Forgy, J. Clyde Horton, F. I. Andrews, John Cubbon, Clyde Bishop and Wayne Goble.

Wishing You One and All The Merriest Christmas

This has been a strenuous year; one of change, and stress, and uncertainty for both the merchant and his customers. Throughout the dizzy rise and fall of the markets, there have been many anxious moments for the merchant who has attempted to serve his customers with dependable goods fairly priced. Yet withal, it has been a wonderful year, and we have much to be thankful for. We have enjoyed the good will and confidence of our patrons, and we are grateful. Indeed, in this bit of earthly paradise, people generally have been prosperous, contented, and happy. So we find that we have many good reasons for wishing you a most unusually merry Christmas with all and more than your hearts desire.

CHRISTMAS AS USUAL

Christmas is here again. It has a way of coming back and of joining battle with the world's doubts and discouragements and selfishness and evil. It has a way, too, of winning the fight always with its laughter, its generosity, its spirit of love and kindness and childlike simplicity.

Thus, in spite of unemployment—neither so widespread nor so appalling as in other periods of readjustment—and in spite of shortages and profiteers and politics, most of the civilized world, which a short time ago was plunged in confusion and gloom, finds itself warming up with Christmas spirit, and the words "Merry Christmas" are spoken with the same old joyous thrill as always before.

The real reason for the invincibility of Christmas is its close relationship to little children. It is their day of days, so mysterious, so happy, so full of possibilities for love and service, that even the grouchy old Scrooges, when let into its great secrets, are transformed into the most irresistible of holiday joy-makers.

Let us then celebrate Christmas as usual, thankful for little children and for the grown-ups who have the greatness of soul to become as little children at least once a year.

VICTORY FOR CHINA

Not long ago Baron Hayashi, chief Japanese delegate to Geneva, gave an interview in which he said that it would be many years before China could hope to take rank with the great powers of the world. Dr. Wellington Koo, head of the Chinese delegation, and ambassador to the United States, merely smiled, and courteously expressed his regret that so unkind a remark should have been made.

Dr. Koo bided his time, as is the way of his race, and he had done from the beginning. He did not even press the Chinese demand for action by the League Assembly regarding the continued occupation of the Shantung peninsula by Japan. He made no speeches. But he worked, quietly and effectively, and he got even, with a vengeance. The other day it was announced, to the world's surprise, that China had been elected to membership in the League Council, in place of Greece. That changes the whole Asiatic situation.

The League Covenant provides for nine members in the Council, which is the executive body of the League. Five of these are permanent. They are Great Britain, France, Italy, Japan and—If this country joins—the United States. The other four are temporary and elective. For the first year they have been Belgium, Brazil, Spain and Greece. The Assembly, facing the duty of choosing the members for the next year, re-elected the first three, and disregarding Greece because it had repudiated the Allies and recalled the pro-German Constantine, gave the place to China.

Though nominally temporary, it is likely that China will retain the place indefinitely unless unexpected weakness should develop in the Chinese Republic or in its representation. This means that China will have as much to say in the League about Asiatic problems and world affairs as Japan has.

It is a notable victory for China, the oldest nation represented at Geneva, and for Dr. Koo, the youngest of the diplomats matching their brains there.

IMMIGRATION RESPITE

The only danger in connection with the immigration bill that has passed the House is that the Senate will give it so many loophole amendments as to make it ineffective.

There is no claim made that this measure is perfect. It is admittedly a temporary expedient, calculated to stop the flood of immigration for a year to enable Congress to work out a wise and permanent policy—build a dam of the necessary height and strength, with suitable flood-gates and sluices, so that hereafter the country may admit the people it needs and wants and keep out those it does not need or want.

The newspapers of the country indicate that public sentiment is almost unanimously in favor of this step. The Senate should neither interfere nor delay. Any constructive views that any senators have regarding immigration can better be

offered as contributions to a permanent solution, later on, during the respite that the House bill will provide.

FEMININE ORATORY

Most of the proceedings of the League Assembly at Geneva, though important, have lacked ordinary human interest. The missing note was supplied one day last week when Mile. Henri Forthammer arose to address the Assembly on the subject of suppressing white slavery. She was a substitute delegate for Denmark.

As a correspondent tells it, "Mile. Forthammer took the floor and in the purest English gave the delegates an example of clearness and conciseness which, if it had come earlier, might have shortened the meeting of the Assembly."

Needless to say, she got what she wanted. When she had finished speaking, the white slave resolutions were adopted unanimously.

This is getting to be a familiar story, since American women entered political life, yet men continue to be surprised every time a woman makes a good speech. Feminine oratory, obviously enough, is something that is going to receive study hereafter. That is, the men are going to study women's speeches, to see how they do it.

There is an odd contradiction that remains to be explained. Women in ordinary conversation have generally been considered rambling, inconsequential and wordy, compared with men. That is, the men have so considered them. How then does it happen that when women rise to address a crowd, they usually speak more concisely, logically and forcibly than men do? Is it because they try harder, or because they have some special gift that they have not been given credit for?

ALIENS AND ALCOHOL

It is found that most of the offenders against the prohibition laws are the foreign-born. It is likewise the alien residents, not the native Americans, who are most vehement in denouncing prohibition as an unwarranted interference with their "personal liberty." A police judge before whom these offenders are brought in droves, says:

"I have seen violators of foreign birth stand up in the witness chair and threaten to fight me. Not for anything personal, but because I was there to enforce a law that they could see no reason in. I have had violators shake their fist at me across the bench and declare they were entirely within their personal rights in making their own liquor and drinking it, so long as they did not try to sell it."

"They were loud in their declarations that the police had no right to interfere with anything they chose to eat or drink. Their attitude is simply the result of their system in the old country, and they cannot see the reason for subjecting their old habits and customs to the provisions laid down by the law of the land they have adopted."

Most of them are from countries where home-made liquor is the usual thing.

The judge's conclusion is sound—that these people need education more than punishment. He recommends "community houses with libraries, rest rooms and play rooms where the foreign-born man with his family can spend leisure time amid American refinements, where they will come into constant contact with Americans and get the American viewpoint."

This is expensive and troublesome, but is it any more so than the let-alone policy of the past?

American Toys

Riverside Press

The Christmas shopper with time to be curious, and sufficient interest to want to check up on the toy situation, must be agreeably surprised to find that, although German toys are again on display, the great bulk of the holiday array is "made in U. S. A."

Toy-making, it is reported, has become one of this country's most substantial industries. Of \$100,000,000 worth of toys sold here during the last year, \$30,000,000 worth were manufactured in the United States. An increase of 30 per cent is prophesied for next year.

It is comfortable to learn that the American toys are of better quality than the German toys of pre-war days. In fact, their excellence and ingenuity have both greatly increased the market for them at home, and introduced them in large quantities in many foreign lands which formerly sold to us instead of buying from us.

The current American toy is not wholly a plaything. It is used in the schools for instruction purposes. Carpentry classes make doll houses which sewing and art classes decorate. Electric trains and steam engines are used for boys in the mechanical training, and many a doll's wardrobe serves for first lessons in dressmaking.

Even the toys strictly for use in the playroom are of stouter structure and saner design. They carry, concealed in their entertaining features, training for chubby fingers and developing minds.

These are gasoline prices that try men's soles.—Detroit News.

The man who connects with the idea that the time is at hand to put more elbow grease, enthusiasm and fidelity into his work is the man who will win.—Houston Post.

Let Joy Be Unconfined

On Christmas Morning

Philadelphia Record

Upon getting up on Christmas morning, the first thing to be done is to fix upon your face the gladsome Yule-time smile, whether you feel like it or not.

Possibly it will make you feel like a driving idiot, but it must be worn out of respect for tradition, and will be so much a part of your make-up by the time you get down to the scene of general festivities, that when the one thing in the world that you loathe most, and have been dreading in anticipation, is seen coming toward you in the guise of a gift, you will have become so well fortified behind the smile that the closest scrutiny will fail to reveal the anger and disgust that are clamoring for an outlet.

It is no longer considered good form for the recipient of a diamond to touch it with the tip of the tongue, to ascertain whether it is alum or the genuine article.

In a large percentage of cases it is likely to turn out to be the former, in which instance the situation would be embarrassing to both parties.

Never criticize a gift, no matter how hideous or undesirable it may be. If it is breakable let it fall. This accident will be attributed to your nervous joy at receiving it. If it is not breakable arrange to have it mysteriously disappear. This will be accounted for by the belief that it was coveted by someone who has stolen it. In this way nobody's feelings will be hurt and the monstrosity will be done away with most effectively.

Worth While Verses

"BELOVED BROTHERHOOD"

Earth, ocean, air, beloved brotherhood!
If our Great Mother has imbued my soul,
With aught of natural piety to feel
Your love, and recompense the boon with mine;
If dewy morn, and odoriferous noon, and even,
With sunset and its gorgeous ministers,
And solemn midnight's tingling silence;
Her first sweet kisses, have been dear to me;
If no bright bird, insect, or gentle beast
I consciously have injured, but still loved
And cherished these my kindred; then forgive
This boast, beloved brethren, and withdraw
No portion of thy wanted favor now!

—Shelley.

Today's Talk

by George Matthew Adams

AND THEY LAID HIM IN A MANGER.

Christmas always makes me happy in one way and very sad in another. I am happy because so many thousands are made happier, but sad because I seem so helpless in such a flood of goodness!

But Christmas teaches so much. In the first place, it is so universal—the spirit of thinking about others is so general, affecting all classes, creeds and climes.

And in it all the giver counts for so much more than the gift.

The divine democracy of it all makes Christmas stand apart. No wonder! For did they not lay Him in a manger? And it was to this simple place that the men and women who had been told about His birth, came with their gifts.

The birth of Jesus was a very happy event.

And the more you study into His life, the more you are convinced that the greater part of it was happy and that He was not a "man of sorrows" all the time. I believe that He often smiled—for instance, at the times when groups of children gathered about Him.

The happier you make others, the more immediate is the response of happiness in your own heart.

Christmas always seems to bring one beautiful picture to my mind which is typical of the time everywhere—people with their arms full of packages—for someone else besides themselves! Armful time—that's it.

This year, more than at any other thus far, we may extend the divine spirit of Christmas into the coming year. Famine and suffering is hovering about millions. May we think of them as we think of those who are so near to us. And help!

Remember, they laid Him in a manger. Because there was no room for Him in the Inn.

Jokes, Joshes and Jingles

GOOD EVENING

All hail, proud old Flag! At the stars that deck the plains of heaven are the glory of the night, so shall these stars be the glory of this nation, shedding their light along the pathway of Liberty.

—John A. Logan.

GOOD EVENING

Many waters cannot quench love, neither can the floods drown it.

—Solomon's Song.

Rich Old Aunt—Robert, I am going to make my will. I think I shall leave you—(pause)

Nephew (eagerly)—Yes, aunt. Aunt—Before long.—Boston Transcript.

Stella—Did you call for help when he kissed you in the dark? Maybelle—Silly, I should say not. He didn't need any help.

West—Barson has gone to California for his health. North—How did he lose it? West—Earning the money to go to California.—Life.

Kid—How old is that lamp, Ma? Ma—Oh, about three years. Kid—Turn it down. It's too young to smoke.

Economic Waste and Crime

Bakersfield Californian

When automobiles and the outlay made by the public especially for pleasure cars are mentioned in certain thoughtful quarters we sometimes hear something said about "economic waste."

Recent federal statistics disclose that within the last year thirty million feet of lumber has been consumed in the United States in the manufacture of children's toys. The question of economic waste might also be raised in this connection.

Millions of dollars are spent annually in California in the purchase and upkeep of pleasure automobiles and for the fuel to run them. That money, if turned into many of the available channels of investment would yield large returns in interest and dividends. The charge of economic waste could not then be made.

The money spent for toys from that thirty million feet of lumber could likewise be invested in a manner that would yield large financial returns. Moreover the lumber thus consumed would assist materially at this time of housing crisis if it were made into homes.

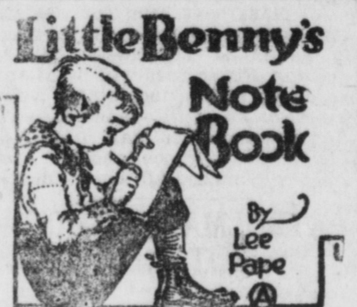

But the Californian elects to own an automobile in which to take his wife and babies out for recreation on the splendid high-

ways of the state. He believes that he gets the worth of his money in the shape of the added health and happiness of his family and himself. He also votes unanimously that his babies shall have toys.

The economist must therefore look elsewhere for the application of his theories. Merely by way of a friendly suggestion we beg to call his attention to a neat little item of thirty-six million dollars absolutely thrown away annually by the state of California so far as any beneficial returns are concerned.

Crime costs California that huge amount every year according to official statistics and, in view of the steady increase of law infractions every year, it is going to cost more.

In the application of scientific principles for the reduction of waste in this state and for the encouragement of thrift it occurs to us that it might be well to start the process of elimination with something that we can most readily spare, like crime, for instance. Once that is wiped out, or at least reduced to less formidable proportions, it may be found that the outlay for autos and toys and other things that bring happiness into our lives will not be seriously missed.

BEING SICK

There is 2 kinds of health, good and bad, only people don't notice it till they begin to get bad and then they start to remember how good it was when it was.

People get more pleasure out of telling how bad they feel than they do out of telling how good they feel, on account of that being the only pleasure there is in it. If you want to hear how good they feel you have to ask them but if you want to hear how bad they feel all you have to do is just listen. The first thing you do when you get a stummick ache for any reason is to go around bragging about it but when you feel so good you couldn't feel any better if you tried, you hardly ever go around saying, 'O boy maybe I don't feel grate. This proves bad news travels the fastest.'

As soon as you begin to feel sick you start to think, 'G, I wish I was better, but when you feel all rite you never think, 'G, it's a good thing I ain't sick. This proves its easier to have a bum time than wat it is to enjoy yourself.'

When a person feels a little sick they jest stay that way and hope they won't get worse, and when they get worse they say theyre gonig o go to the docter if they get worse than that, wich they probably would, only by the time they get worse than that the docter has to come to them. It sounds worse to say you're sick in bed than wat it does to jest say you're sick, and if you say you're sick in bed with a nerse it sounds fearse. You dont haff to be sick jest to get a boil on the back of your neck, being a good thing on account of the boil being bad enuff by itself.

The People's Forum

HEAD OF PAGEANT COMMITTEE EXPRESSES HIS APPRECIATION

Editor Register:—Will you grant me space to say a word of appreciation?

The Pilgrim Pageant was a great success.

It was so because of the splendid community co-operation that was back of it.

It meant a great deal of hard work at the busiest time of the year. I should like to say, "Thank you" to all who participated in this great event.

I want to say it to the organizations represented—religious, patriotic, fraternal and cultural.

I want to say it to the general director and to the directors of the episodes. It was exceptional service they rendered. Not only did they direct the public presentation but they composed and compiled the pageant itself.

I want to say it to all who participated in the various episodes in any capacity.

And, "finally brethren," I want to say it twice to The Register. The pageant could not have been the success that it was without the co-operation of our fine community newspaper. The generous publicity given to the pageant through the pages of The Register was the thing that stirred the community. To have purchased that space would have been impossible—we didn't have so much money. Your generous contribution is appreciated more than I am able to express.

P. F. SCHROCK,
Chairman of the General Committee.

OPEN TONIGHT

MERRY CHRISTMAS

It would take the combined patience of Job, Jeremiah and Joshua to read through a Christmas greeting that would express this store's true feeling towards its friends and customers.

So we'll make it snappy—so you can get back on the floor with the kids.

MERRY CHRISTMAS — and thank you for your trade and your confidence.

HAPPY NEW YEAR — we'll do our part to make it so—if you'll give us the opportunity.

Crom-McCann Wedding is Solemnized Here

Yesterday morning at St. Joseph's Catholic church, after the eight o'clock mass, a beautiful wedding was solemnized, uniting Miss Edna Crom, of the local hospital staff, and Mr. Harry McCann, of Taft, Cal. Miss Crom has been in Santa Ana for more than a year, as bacteriologist, having charge of all laboratory work at the Community hospital. She is a native of Detroit, Michigan. Mr. McCann is an employee of an oil concern at Taft, where the couple will make their home.

Miss Norma Boucher, of Detroit, cousin of Miss Crom, came here for the wedding, and was the bride's only attendant. Mr. Carl Gates acted as best man.

Seventy-Sixth Anniversary

At the home of Mr. and Mrs. Henry Buck, 127 South Main street, Mrs. H. N. Buck and her sister, Mrs. Fawcett, both daughters of Mr. G. W. Kelly, who is here from Indiana, spending the winter, gave a dinner honoring their father's seventy-sixth birthday anniversary, which occurred December 21.

The table was arranged with Christmas decorations.

Covers laid for the following guests:

Mr. and Mrs. C. Painter, Mr. and Mrs. R. Arnold, Mrs. Janie Rumburg, Mrs. D. Hupp, Mr. and Mrs. Jack Lee, Mrs. Helen Frye and daughter, Nellie; Mr. and Mrs. Lee Buck and daughter, Alline; Charles Seals, Mr. Scott Wilson, Mrs. Bessie Tomlinson and Mr. and Mrs. Finn Fawcett.

Santa Ana Woman's Club

The Women's club met Tuesday afternoon at the home of Mrs. J. J. Wyk, 1109 North French street. The home was gaily decorated with brilliant clusters of holly. Mrs. James Clark, in her usual pleasing manner, presided.

Mrs. R. R. Tiffany, who has been absent on account of illness, was welcomed again to the circle.

Mrs. G. B. Lammie brought greetings from Mrs. F. A. Marks, who is visiting relatives in Texas. Greetings were also received from Mrs. Hattie Dunn of Garden Grove, and Mrs. C. L. Johnson, an absent member.

One membership application was received. Mrs. I. D. Annis read a magazine article entitled, "Women in Politics," by the Hon. J. G. Cannon, in which the author declares that women have been in politics ever since Eve negotiated Adam out of Eden. Roll call was responded to by the bringing up of current topics, and lively discussions ensued. At the close of the business session the hostess served delicious home-made candy.

A rising vote of thanks was given Mrs. Van Wyk for her delightful hospitality.

The next meeting of the club will be held January 4 at the home of Mrs. James Clark.

Rebekah Christmas Meet
The Sycamore Rebekah lodge will have an old-fashioned Christmas get-together meeting tomorrow, Saturday evening, at Odd Fellow's hall. All Odd Fellows and Rebekahs and their children are cordially invited.

Daughters of Veterans
The regular meeting of the Daughters of Veterans will be held Saturday afternoon at G. A. R. hall at 2 o'clock.

Past Matrons' Luncheon
The Past Matrons' Association, O. E. S., will be entertained with a Christmas party by Mesdames Theodore Winbiger and William L. Tubbs, Tuesday at the home of Mrs. Winbiger, 207 East Ninth street. Luncheon will be served at 1 o'clock.

Dance with us Saturday nite and Sunday afternoon. Balboa Pavilion.

Be on hand Monday at Leipsic's Pre-Inventory and End-of-the-Month Half-Price Sale.

BEFORE THE SNOW.

The quiet of December woods—before the snow!

A little slipping sound of squirrels' feet

Amid bare branches; breathing soft and low

Of unknown winds that stir with pulsing beat

The little paths where pagan shadows go;

The dripping waters somewhere, silvery sweet.

There are so many moving things within

These cloistered spaces, such a mystic din

Of creeping insects under bark and leaf.

That balsam of the evergreens, that grief

Of vanished bloom, where part-ridge berries glow

Amid the ground pine—woods before the snow.

—By Folger McKinsey.

Christmas Exercises
The First Presbyterian Sunday school will hold its annual Christmas exercises at the church tonight at 7 o'clock.

There will be a program rendered by the children, with Christmas tree exercises. The Sunday school members are making this a "Giving Christmas."

Anniversary Party
Mr. and Mrs. Alfred S. Wright gave a party last evening at their home, 824 East Fifth, in honor of the tenth birthday anniversary of their son, Stanley. A surprise was prepared for him by Mrs. Wright, and the home was beautifully decorated in red and green. Games were played by the youngsters, and many lovely gifts received by the young man. A beautiful watch had been sent from the East by his grandmother. Light refreshments were served, and birthday greetings tendered the happy lad.

Those present were: Evelyn Breeding, Alice Davenport, Louise Crawford, Hazel Crawford, Vernis Waggener, Josephine Waggener, Louise Rowland, Eugene Davenport, Pauline Wright, Payton Waggener and Alfred Wright.

Mrs. Wright was assisted by Mrs. Clyde Rowland and by Mrs. Albert Wright.

Exercises at Baptist Church
The Christmas Pageant, "Bethlehem," given by the Bible school at the Baptist church last evening was so much appreciated by the large audience in attendance that those in charge were requested to repeat it Sunday evening at the Christmas song service starting at 7 o'clock.

At the conclusion of the pageant a "giving exercise" took place when rice, flour, soap, sugar, cotton and woolen blankets, beans and corn meal were brought in for distribution among the poor of the city. The unique admission fee for the evening's entertainment was one Irish potato, one sweet potato and one apple. The total gate receipts were so overwhelming that the bins were soon filled and the overflow could not be brought to the platform with other gifts.

Mrs. W. L. Innes was presented with a beautiful basket in recognition of her services in decorating the church for the Sunday worship. But the greatest gift of all was the public declaration on the part of two young people of the church to devote their lives to Christian service. In appreciation of this, the Sunday school class of Miss Mildred Bove presented her with a gift, and Harold Armstrong's class of boys presented him with a bible. The entire audience participated in a silver offering for the starving children of Europe.

Dance with us Saturday nite and Sunday afternoon. Balboa Pavilion.

Be on hand Monday at Leipsic's Pre-Inventory and End-of-the-Month Half-Price Sale.

Turkey Dinner Is Given Newly-Weds

Last evening at the home of Mr. and Mrs. Horace Snow, 518 South Van Ness, a six-course turkey dinner was given, honoring Mrs. Snow's brother, Mr. and Mrs. Frank Kalin, Jr., who were married last week at Long Beach.

The table was beautifully decorated. It was centered with a Christmas scene, in miniature, comprised of six small reindeer, drawing a sleigh driven by Santa Claus. The snow-covered table made the scene very realistic, and the sleigh contained a gift for each guest. Cards of tiny toy sleds were placed for the following guests:

Mr. and Mrs. Raymond Marsile, Mr. and Mrs. Ernest V. Winbiger, Mr. and Mrs. Martin V. Biggs and Mr. and Mrs. Frank Kalin, Jr.

Five hundred was played after the dinner, the highest score for ladies being won by Mrs. Ernest Winbiger. Mrs. Martin Biggs won second prize. Gentlemen's first and second prizes went to Mr. Winbiger and Mr. Kalin, respectively.

Mr. and Mrs. Frank Kalin, Jr., will make their home at Long Beach.

Legion Ready for Dance
All plans have been completed for the American Legion dance that is to be given at Athletic hall this evening. Five prizes will be awarded as dance favors, including a pair of candlesticks, with candles; and a flower vase. The hall presents a holiday appearance, and a joyous time is promised all who attend.

**PATROLMAN IS SHOT
BUT KILLS BANDIT**

ST. LOUIS, Dec. 24.—After being shot and probably fatally wounded by one of two unidentified bandits whom he discovered holding up a dry goods store, Patrolman Lawrence Krewet returned the fire, killing one of the men. The other escaped with approximately \$500 from the cash register.

**BISHOP BURCH LAID
TO REST IN CRYPT**

NEW YORK, Dec. 24.—The body of the Rt. Rev. Charles Sumner Burch, bishop of the Protestant Episcopal diocese of New York, was laid to rest today in the crypt of the cathedral of St. John the Divine.

Burial rites for the bishop, who died suddenly last Monday, were attended only by members of his family. They followed an impressive public funeral which brought approximately 20,000 persons, prominent in many walks of life, to the great edifice to honor his memory.

**JAPANESE EMPEROR
APPEARS AT COUNCIL**

TOKIO, Dec. 24.—Emperor Yoshihito, who has been ill for a long time, presided at a privy council for the first time this year. He appeared nearly restored to his former health and his complete recovery is expected shortly.

The Yamato Shimbun reports today that Roland S. Morris, United States ambassador to Japan, will arrive here January 10 in connection with the negotiations over the California anti-Japanese legislation.

**CHICO HIGH SCHOOL
BOYS IN TROUBLE**

CHICO, Dec. 24.—More than half a dozen Chico students face expulsion for smoking cigarettes, "shooting craps" and drinking wine and a patent medicine popular as a beverage. It was announced by James Ferguson, principal of the school and former deputy superintendent of the San Francisco schools.

Ferguson charged that the boys took wine to Oroville, Paradise and other towns on athletic trips, and that the youths of Chico and other places "provided good times" for each other.

**CHAMBERLAIN MUST
UNDERGO OPERATION**

WASHINGTON, Dec. 24.—Physicians attending Senator Chamberlain of Oregon, who has been ill in a hospital here since early in the week, decided that an operation would be necessary. The operation will be performed, it was said, probably Saturday.

PERSONALS

Mr. and Mrs. Charles F. Mitchell, with Mrs. Grace Lowman, spent yesterday in Los Angeles.

Mr. and Mrs. Z. B. West Jr., and small daughter, Elizabeth, were expected to arrive from Palo Alto today, to spend the holidays with the parents of Mrs. West, Mr. and Mrs. M. A. Yarnell, 502 West Fourth street.

Dr. and Mrs. P. R. Reynolds, 720 Bush street, will spend Christmas day in Glendale with Dr. and Mrs. Townsend, the latter being a sister of Dr. Reynolds.

Mr. and Mrs. Cyrus Roberts, and daughter, Jean, of Los Angeles, are spending the Christmas season with Mrs. J. B. Roberts, 202 East Ninth street.

Truman Dawes and George Baker arrived in Los Angeles this morning on the Stanford special and will visit their respective homes in Santa Ana for Christmas.

Miss Roberta Dawes, daughter of Mr. and Mrs. H. C. Dawes, a student at a college of music in Los Angeles, is home for the holidays.

Miss Laura M. Davis, a student at Stanford University, daughter of Mr. and Mrs. S. M. Davis, reached home Wednesday, to spend the holidays with her parents, 120 West Eighth street.

A. J. Ralph of the Auto Club of Orange county has returned from San Luis Obispo, where he went in order to secure the automobile of C. M. Nass, which was stolen in Santa Ana last week.

Ensign Roland Wilkenson is home on a short furlough to visit his wife and parents at Newport Beach.

Stewart Smith, in charge of the gymnasium classes and athletics at the Fullerton high school, and wife, were here today, visiting Mr. and Mrs. R. R. Smith.

Mr. and Mrs. W. L. Frisbie, of Sisson, Cal., are here to remain over the holidays as the guests of Mrs. Frisbie's parents, Mr. and Mrs. F. J. State. The visitors reported four feet of snow on the ground at Sisson when they left.

Mr. and Mrs. L. Harding, of Caldwell, Idaho, are visiting here with the former's brother, H. L. Harding, 819 West Fifth street.

Mr. and Mrs. Michael Thompson and daughter, Marion Louise, of Los Angeles, are spending Christmas with Mrs. Alice H. Harris, mother of Mrs. Thompson, 715 North Bush street.

Miss Waive Kingrey, a student at Stanford university, is spending an eleven-day vacation with her parents, Mr. and Mrs. T. P. Kingrey, 801 South Birch street.

Mr. and Mrs. Horace Fine and Mrs. Louise Waite went to Balboa yesterday, returning this afternoon.

Miss Florence Breckenridge, one of the secretaries in the Y. W. C. A. at Long Beach, will arrive tonight to spend the Christmas holidays with her parents, Mr. and Mrs. James Breckenridge, 113 South Sycamore street.

Mr. Russell Patterson of Long Beach, will spend Christmas in Santa Ana with his grandmother, Mrs. William Barnard, of 601 East Sixth street.

Mr. and Mrs. George S. Smith, 916 French street, left today to spend Christmas in Berkeley, visiting at the home of their married daughter, Mrs. Rodney Atsatt.

Mrs. R. G. Tutthill is entertaining as holiday guests Mr. and Mrs. G. W. Dockstader, of Kansas, and Mr. and Mrs. B. F. Dockstader, of Chula Vista.

Mr. and Mrs. L. Crasher finished moving yesterday into their fine new home at 720 South Sycamore. Mr. Crasher has another new house in course of construction in the Polytechnic Villa tract.

**JAPANESE SITUATION
IN CAPITAL IS QUIET**

WASHINGTON, Dec. 24.—The California delegation is all upset over new developments in the Japanese situation. The plan of proposed changes will not now be effective, and apparently no further action will be taken until after Ambassador Morris has resumed negotiations with the Japanese government in Tokio in the early part of January.

Merry Christmas

At this season for joyous expressions we want to extend best wishes to everybody.

Especially we want to thank our friends for their thoughtfulness and patronage. We appreciated it and will always strive to return the compliment.

POSTAL TOTALS FOR YEAR WILL BE \$72,000

"The postal receipts for the Santa Ana postoffice for 1920 will reach \$72,000. Two weeks ago we estimated that the total would be \$69,000. The total will go \$3,000 beyond that sum."

This was the declaration made today by Postmaster C. D. Overshiner, as the greatest season of Christmas business the postoffice has ever had got upon the last leg of its Christmas journey.

The record for a day's receipts at the stamp windows is held by Monday of this week. On that day \$760 was received for stamps. The biggest day's business last year totaled \$630. Yesterday proved a surprise at the postoffice. The second day before Christmas is always productive of a great number of purchases of stamps in small quantities for the mailing of cards and letters. Judging by the way things went last year, compared with this, the postal people expected sales totaling around \$300 yesterday. Instead of \$300, the sales totaled \$500.

Thousands of Christmas cards and letters of holiday greetings were being delivered today by carriers of the Santa Ana postoffice. There were more of them in the hands of carriers today than ever before.

Evidence of the fact that Santa Ana has grown and that people are extending their greetings to friends freely came when the cancelling machine figures at the post office were examined at the close of yesterday's business. Yesterday 27,540 pieces of mail passed through the cancelling machine. That set a new record for the office.

Last year the greatest number of pieces of mail for a day's business was on December 23. On that day 23,700 letters and cards were received by the local office.

GRAND JURY INDICTS TWO BUTTE CO. MEN

CHICO, Dec. 24.—Suspending its investigation of affairs throughout the county, the Butte county Grand Jury indicted Alf Travis, charged with assault with a deadly weapon by Herschel Cullen of Stirling City, and E. McDaniel, local taxicab driver, charged with soliciting for fallen women. Travis is alleged, attacked Cullen several weeks ago and wounded him severely with a knife. Travis is at liberty under \$1000 bail.

Be on hand Monday at Leipsic's Pre-Inventory and End-of-the-Month Half-Price Sale.

FOR SALE — 4-room modern house — close in — lot 50x125 — price \$3500—\$500 down; balance like rent.

BISHOP-COAJUTOR OF EPISCOPAL DIOCESE, L. A., TO VISIT HERE

The Rt. Rev. W. B. Stevens, Ph. D., bishop co-adjutor of the diocese of Los Angeles, will make his first official visit to the parish of the Episcopal church of the Messiah Sunday. Bishop Stevens, while a young man, has made a fine impression on the people of Southern California by his forceful, straightforward and earnestness for the best ideals of living. He is taking a prominent part in the secular as well as the ecclesiastical life of the Southland.

Y BOYS TO CAMP AT MODJESKA HOME

Preparations to care for 140 Y. M. C. A. boy campers were being made today at the camp above Modjeska's. The boys will be taken to the scene in groups of thirty-five, as that is the limit of the accommodations offered at the camp. The first group will leave at 1 p. m., Monday and will stay overnight at the camp, leaving for home Tuesday at 2 p. m.

Other groups will leave on Tuesday, Wednesday and Thursday, following the same schedule as the first group. Hikes, campcraft, and outdoor stunts will be the order during the day. At night a campfire in the cabin, with games, story telling and indoor stunts will make things interesting for the boys.

There is still room for four or five of the younger boys in the group to leave Monday, said Secretary R. R. Miller today. The Tuesday group can also accommodate a few more of the younger boys, but the Wednesday reservations are all taken.

Thursday the older boys will go to the camp. A few vacancies are still open in this group.

It is expected that the groups will be entirely completed before Monday.

PIRATE SHIP FLIES DIFFERENT FLAGS

SEATTLE, Wash., Dec. 24.—Sailing the bleak coast of Siberia, hiding amid the bergs that drift down from the Polar sea and menace navigation, is a pirate schooner that to date has baffled Uncle Sam's cutters and has the remains of the little fishing and trading villages along the Siberian coast trembling in fear at the rattle of chains through the hawse pipes. At times the "Jolly Roger," according to a cable from Anchorage, slips into the harbor of Anadir, only to slip away with some sort of loot.

The last exploit of the privateer was stealing 30 tons of coal at Emma harbor and selling it in Nome. By the time news of the raid had reached Nome the phantom ship had slipped its cables and was away into the icy seas.

This information comes from members of the crew of the schooner Alaska, which recently touched at several ports and which is the first Bolshevik ship to travel to the American shores.

The identity of the master of the pirate craft is said to be known and the ship is said to have been chartered from Russians in Vladivostok for a month. Getting out of Vladivostok, the pirate hoisted the American flag and under this emblem began its raids upon the coast. When pursued it switched to the Russian flag and entered American waters and later hoisted the Siamese emblem. The last seen of her she was wintering in Port Safety lagoon, about 24 miles from Nome.

PREPARING PLANS FOR PUBLIC CAMP GROUND

SAN BERNARDINO, Dec. 24.—Plans for the proposed new parking and camping grounds to be established in Meadowbrook Park as advocated by the Rotary club and the Chamber of Commerce are being drawn up by City Engineer Will L. Brown.

The plans call for grading and piping of the southeast portion of the park and the effecting of better sanitary conditions.

Under the plans now being drawn the park will be made one of the most attractive free camping sites in Southern California. Streets will be graded and more trees planted. The water department has agreed to install the piping and furnish the water for the campers. The street department will put a grader to work in the camp and make the streets. Other departments of the city organization and the various civic organizations of the city will co-operate to install other comforts for the park.

WOMAN DIES WHEN GAS HEATER UPSETS

LOS ANGELES, Dec. 24.—After addressing Christmas cards to a number of her friends, Mrs. Robert Shaw, 30 years old, a widow, turned out a gas heater in her room and retired. There was a leak in the fixture of the gas heater, however, and during the night she succumbed to the fumes which escaped from it. The Christmas cards, stamped and ready to mail, were on a table in the room. They were given to the Public Administrator, who will carry out the woman's intention. Mrs. Shaw was a clerk in a downtown store, and is said to have a daughter and relatives living in this city.

Beautiful hand painted satin boxes and work baskets packed to order at the Dragon.

DANCE

The Del Signo Dansante are giving the first of a series of PRIZE WALTZES

CHRISTMAS EVE, FRIDAY, Dec. 24 at Campbell's Hall, Orange

The prize to be a ladies' beautiful diamond ring to the winner

Del Signo Syncopated Jazz Orchestra will furnish the music.

Admission, \$1, war tax 10c; Ladies Free

43 ENROLLED IN Y GYMNASIUM CLASS HERE

Any business man who feels the urge to exercise and who desires to do so with the Y. M. C. A. gymnasium class for business men will have to put in an application at once, it was announced today. The limit of fifty placed on this class, has resulted in forty-three applications up to this time, and R. R. Miller, of the Y. M. C. A., in urging those who desire to take part in this class to put in their applications at once. The limit of fifty cannot be stretched, Miller warned.

Much enthusiasm has been shown by Y clubs and Sunday school athletic clubs since the Y. M. C. A. began making a gymnasium of the armory on Birch street. Basketball clubs to enter the league planned for the next few months have been organized and are practicing at every opportunity. A limit of six clubs in each of the three divisions of the league will be easily reached, according to Miller, who has issued the ultimatum of "first come first served" as a method of deciding which clubs will be allowed to compete in the league.

Of the eighteen teams to be accommodated in the league, twelve have already signed. This leaves but six more openings to be filled in order to complete the schedule as planned.

Two men have been secured for each evening that the gymnasium is in use and will have charge of business affairs in connection with the evening's program.

Challenges from teams in Northern Orange county have already been received by the Y. M. C. A. and will probably be accepted at a later date. These games will be played at such times as the regular schedule will permit.

PROTEST RIVERSIDE 'DUMPING' 'HOBOS'

City Marshal San Jernigan and Sheriff C. E. Jackson today held a conference with a view to making a protest to the officials of Riverside county, who, they have been informed, are pursuing a "move along" and "floater" policy toward vagrants in that county, and especially in the city of Riverside.

A determined effort is being made here to stop the influx of vagrants. All vagrants are being taken into custody, and if found guilty of vagrancy are being given jail sentences by Justice John B. Cox, as well as by the justices in the other towns of Orange county.

Many of the men recently arrested and jailed here, according to Jackson and Jernigan, have come from Riverside and have informed the local officials that they had been "floated" out of Riverside county, and asked the same treatment here, which, needless to state, they did not get.

Jackson and Jernigan state that a determined effort is being made both in Los Angeles and San Diego as well as here to round up and jail all vagrants. They say they do not feel that it is just that Riverside county should pass its vagrants along and not do its share in jailing such men in accordance with the law. They feel that such tactics merely place upon Orange county, as well as upon the other counties bordering Riverside county, an added burden and expense.

It is considered probable that the two local officers will go to Riverside within a few days for the purpose of making representations in this connection to Riverside city and county officials, and arranging for better co-operation between the two counties in the matter of protecting citizens from the dangers a later date inevitable wherever there is a class of floaters and hoboes.

ARMENIA ANNULS ALL FOREIGN LOANS

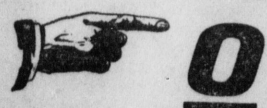

LONDON, Dec. 24.—The Armenian soviet, in a proclamation has annulled all foreign loans, "especially the American loan," which the Armenian workers have been toiling to repay, says a Renter dispatch from Constantinople.

ANAHEIM'S \$100,000 PARK BOND ISSUE IS SOLD TO L. A. BIDDER

The Anaheim board of city commissioners opened bids last night on the \$100,000 park bond issue. Four bids were received, the highest from the California Mercantile and Bond company of Los Angeles, the premium being \$2721.

The next highest bidder was the William R. Staats company of Los Angeles, with a premium of \$1337, followed by the Bank of Italy, San Francisco, \$1000 premium. The other bid was by the National City Bank of San Francisco, offering a premium of \$673.

The bonds are forty-year serial, bringing 6 per cent interest. They will be sold as soon as possible and the work started at once on the forty-acre site, situated on North Lemon street.

JAP ENVOY DENIES ARMAMENTS CHARGE

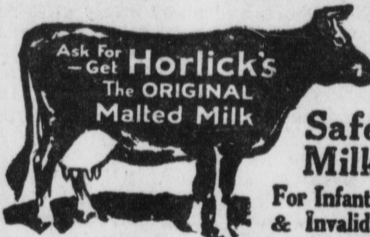

LONDON, Dec. 24.—Japan has no intention of setting the pace in a race for armament, Count Hayashi, ambassador to Great Britain declared today.

This country will be pleased to join in discussions of armament reduction, he said.

Hayashi made his statement immediately on returning from Geneva, where the question was brought up in the league of nations assembly and abandoned without action.

"Japan's policy always has been directed toward maintaining friendly relations with the United States and China," he said.

The alliance with Great Britain is a source of satisfaction to the entire Japanese nation, but it does not mean Japan has any intention of setting the pace in armaments. The Japanese naval program is a measure for defense natural to any inland empire.

PAGES 7 TO 12

URGES AUTOISTS USE LOCKS AND VIGILANCE TO CUT NUMBER OF THEFTS

Because Car Is Insured Is No Reason for Lack of Care, Pointed Out

GOOD ADVICE IS GIVEN

Advocates Prompt Reports to Police When Persons Seen Tampering

By R. A. DONALDSON

With the number of automobile thefts continually piling up, it behooves every motorist to take all possible precautions to guard his car.

The average automobile thief does not take what he cannot take quickly. While there are few locks that cannot be gotten around in one way or another by thieves if they have the time, it is but seldom that such thieves will bother with a car which is obviously well locked and which will cause them much trouble to steal.

Ignition locks alone are not enough, as professional thieves usually carry master keys, or else disconnect the switch wires before they reach the lock.

Many motorists are careless with their cars merely because they have them insured. They frequently do not stop to think that their insurance does not cover the total value of the car, or of the fact that they will be greatly inconvenienced by the loss of use of the car, or of the amount of work and danger the recovery or tracing of a lost car may cause the police.

Fail to Use Locks

It is noticeable that many people who possess wheel locks do not use them. They will let their cars stand on the street for from fifteen minutes to an hour or two with their wheel locks lying in the rear of the machines. It does not take a thief two minutes to take a machine. He gets it, and is gone. Whether the car has been standing ten minutes or several hours does not make any difference to the man who wants to take it and finds it unprotected.

Lack of protection is particularly found in smaller cars, especially Fords. Two Fords were stolen in one night recently between 7 p. m. and 9 p. m. while their owners were in a movie show here. One of the cars was recovered at Orange, where it had run out of gas. The other has not as yet been found.

That a dangerous class of criminals steals cars here, as well as elsewhere, is shown by the actions of the two men who stole the machine of William Maag, of Anaheim, from a Santa Ana street a few nights ago.

Rob Station Attendant

These men, driving Maag's car, went to a filling station near San Luis Obispo, knocked the attendant on the head, robbed him and went on their way. Fortunately they were apprehended, and are at present being held at San Luis Obispo, charged with highway robbery.

An officer was killed at El Monte a short time back when he drove up beside a machine and told the driver to stop it. The man shot him. The machine proved to be a stolen one.

Motorists should also guard against the "auto parts thieves." Such thieves are becoming more numerous every day because, although the value of the lost is less, they believe they stand less chance of apprehension.

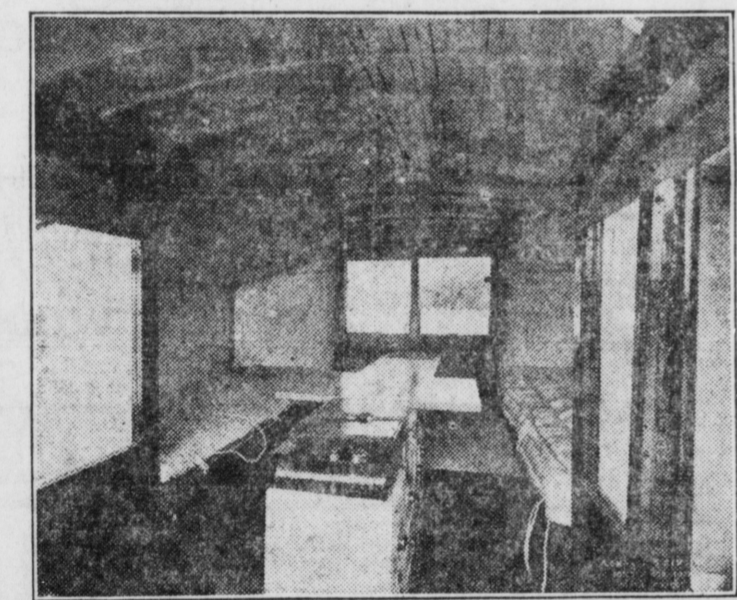

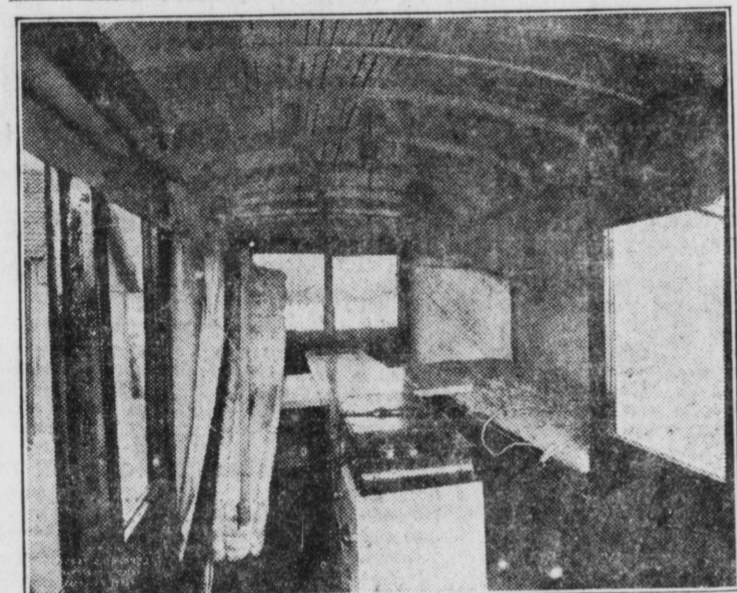

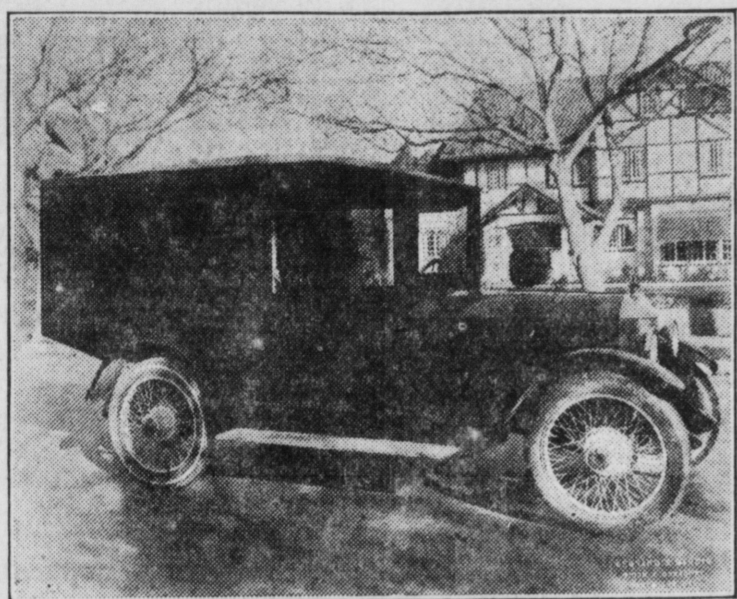

Santa Ana and Orange county police officials have been exceptionally fortunate in catching a great number of these thieves, but such thefts nevertheless are more or less continual.

Laprobos Taken

Laprobos, and spare tires particularly, are taken. Motorists should, whenever possible, take their robes inside with them when leaving their machines on the street in the evening. A great many such thefts are perpetrated by passing vagrants, and by irresponsible individuals who

DE LUXE CAMP CAR IS ACME OF LUXURY

Top, side view of the exterior of car. Middle, interior view showing one of beds open for use and second bed closed for traveling. Below, interior view with beds open for camping.

FORMER 'SHAVE TAIL' TAKEN AS EMBEZZLER

PITTSBURG, Pa., Dec. 24.—John C. Gottenkiene, alias David L. Gordon, former second lieutenant in the Fifth Field Artillery division, charged with deserting his command in Coblenz, Germany, in June, 1919, taking with him about \$48,000 of his company's funds, was arrested and turned over to Department of Justice agents.

Government agents said he would be taken to Fort Leavenworth, Kan., tomorrow, to be tried by court-martial.

Gottenkiene's arrest was brought about by Sanford T. Pomroy, a color sergeant in the same regiment. Pomroy recognized Gottenkiene and notified a policeman.

The season's first debutante in Washington from Congressional circles is Miss Dorothy Mondell, daughter of Representative and Mrs. F. W. Mondell of Wyoming, who has just made her debut.

KOMFORT KAR IS HELD BOON TO CAMPING FOLK

'Pullman' Made Here Puts Real Luxury Into Outdoor Life

"The pleasure of camping is very often marred by the discomforts attending the finding of a suitable site for pitching a tent, with sufficient room alongside for an automobile," said Major W. F. Driver, who with J. M. Northrop has perfected the "Kamp in Komfort Kar."

"This difficulty is especially prevalent in the mountainous districts," continued Major Driver. "Various experiments have been tried to eliminate the discomfort and inconvenience of these camping trips. The tent and camping kit that is carried in the auto and must be removed and set each time it is used has proved a slow and tedious method."

"The use of the trailer improved matters to a great extent, but the efficiency of a trailer is greatly limited in the mountains, where narrow roads and hairpin turns make it almost an impossible method. This leaves only a limited area that can be penetrated by these means."

Latest in Auto Camping.

"The Kamp in Komfort Kar" is the latest word in comfortable camping. It is a Santa Ana product and will be manufactured by Northrop and Driver at their shop at 1013 North Broadway. It can be built to fit any touring car chassis and will accommodate two persons. It does not take up any more space than an ordinary automobile. The exterior of the car is pleasing to the eye and the lines are graceful.

The interior is equipped with two spring beds, which open outward when in use. While traveling, these beds are folded up flush with the outer walls of the car. A commodious cabinet is also provided, with drawers and cupboards sufficient to hold provisions enough to last a party for several days.

Two lockers are provided for clothing. The car also has seats that fit into the design of the car and may be taken out and used in the open. The dining table and cook stove are features of the interior equipment that should prove especially interesting to those feminine campers who have bent over wet wood fires and after cooking smoky meals, attempted to serve them on a folding table or with no table at all. The stove is automatically locked firmly in position so that it cannot be jarred loose when the car hits rough roads.

Electrically Lighted.

Electric lights and points of vantage in the ceiling are connected with the battery on the car and may be switched on and off with convenient push buttons.

Screen over the rear windows provides ventilation from that quarter with protection when the windows are lowered. Standard Ford sedan window glasses are used in the car, so that replacement in case of breakage is easily accomplished.

"With the Kamp in Komfort Kar one may travel in comfort until late in the evening, without worrying about finding a camping place," said Major Driver. "It is only a few minutes' job to let down the sides of the car and make up the beds. One may fold up the beds and prepare for the start in the morning in less than five minutes. We have actually timed this operation at five minutes."

The weight of the Kamp in Komfort Kar body is only a few pounds in excess of an ordinary touring car body. Luxury and comfort for the camper have been built into every detail of the car, which is expected greatly to improve the popularity of auto camping in all sections of the country.

PAT O'BRIEN'S OLD FRIENDS HONOR HIM

MOMENCE, Ill., Dec. 24.—The body of Lieut. Pat O'Brien, aviator who won honors in the world war, arrived from Los Angeles, where he committed suicide. The station platform was crowded with sorrowing friends of the flier who two years ago arrived to receive their praise for his exploits overseas. His mother, Mrs. Margaret O'Brien, was unable to go to the station because of an indisposition.

BAKERSFIELD REJECTS CHANGES IN CHARTER

BAKERSFIELD, Dec. 24.—All of the sixty-one proposed amendments to the city charter, together with the alternative proposition No. 1, voted upon at the city election here, were defeated, most of them by large majorities. Heaviest votes against the amendments were cast in East Bakersfield, where the measures, with the exception of four, were fought by Mayor Hinman and his workers.

GOODYEAR RECEIVER ACTION IS QUASHED

COLUMBUS, O., Dec. 24.—Common Pleas Judge Kinkead sustained a motion to squash summons in the suit filed by Frank S. Monnett, former Attorney General of Ohio Rubber company, asking appointment of a receiver for the company. This nullifies the action in this county, it was said, unless service can be made on an agent.

More Oil Stations Will Be Established In Santa Ana, Says Sun Man

Santa Ana is to be included in the list of cities selected as locations for a proposed chain of oil filling stations, according to the plans announced by Ed L. Sullivan, special representative of the Sun Oil company of Los Angeles. Sullivan was in San Diego today making preparations for the establishing stations for his company in the southern city. He was in Santa Ana yesterday afternoon and was much impressed with the business activity apparent in the city.

He is of the opinion that Santa Ana will be an excellent location for a number of the stations to be installed by the company which he represents.

BEATS TRAIN SIX HOURS IN S. F. RUN

Making a very good record, B. H. Sharpless of Santa Ana drove his car from here to San Francisco, a distance of 425 miles, and averaged over thirty miles an hour. He averaged sixteen and one-seventh miles per gallon of gasoline.

"I drove my Hudson touring car this distance in fifteen hours, an average of thirty and one-tenth miles per hour," Sharpless told A. A. Wyatt of Townsend and Wyatt, local dealers in Hudson and Essex cars.

"I beat the best train service I could possibly have made by six hours, and made an average of sixteen and one-seventh miles per gallon of gas."

The run was made by Sharpless to see his son who was ill. He reported a very pleasant return trip and said that his son was much improved.

SECOND VICE GANG MEMBER CONVICTED

SAN FRANCISCO, Dec. 24.—Edward Kruvosky, San Francisco pugilist and the second of five men to be tried for criminal attacks on young women, was found guilty in the Superior court here.

Like his co-defendant, Edmond Murphy, who was convicted last Monday of the same charges, Kruvosky faces an indeterminate prison sentence of from one to fifty years.

Kruvosky's trial began Tuesday, December 21, and the character of the testimony paralleled that developed in the Murphy case.

Miss Jessie Montgomery, Reno, Nev., and her companion, Miss Jean Stanley, formerly of Portland, Ore., who were named in the Kruvosky indictment as the mistreated girls, and the physicians who attended the young women, were the principal witnesses against Kruvosky, as against Murphy.

The jury was out fifteen minutes. Court attaches said it apparently took only one ballot. Judge Louis Ward set December 27 for passing sentence.

Kruvosky took the verdict calmly, with only a slight wince as the clerk pronounced the word "guilty." His defense was handled by the side of the defendant throughout the trial, wept, but stifled her sobs in a handkerchief.

PHILADELPHIA ASKED TO ADOPT 100,000

PHILADELPHIA, Dec. 24.—Philadelphia was asked by Herbert Hoover to "adopt" 100,000 European children until the next harvest, "so America may complete its relief work abroad."

In behalf of the European relief council the co-operative organization of all American relief in Europe he made what he termed his final appeal.

He pleaded that once again the nation give him "the price of one battleship that the American flag may be planted in hearts of 15,000,000 children—a child saved for every man lost in the war." Of this original responsibility, only 3,500,000 children remain to be cared for until the September harvest.

DR. COPE'S PARTY OFF TO ANTARCTIC

LONDON, Dec. 24.—Dr. John L. Cope, commander of the British Imperial Antarctic Expedition, has sent the following message from Port Stanley, capital of the Falkland Islands:

"Sailing from here December 20 with full equipment and dogs. Hope to land at Graham's December 25. All the party well. Expect to hear from us in eighteen months. Good-bye."

Commander Cope, with four companions, purposes spending eighteen months in surveying and charting the western shores of Weddell Sea and in carrying out scientific work in the Antarctic.

GRAND JURY TO PROBE FORT WORTH LYING

FORT WORTH, Tex., Dec. 24.—A special session of the grand jury was called to convene today to investigate the lynching of Thomas W. Vickery, who was in jail charged with killing Policeman Jeff Couch. Reports that certain members of the police department made up a party who removed Vickery from the jail will be investigated by the grand jury, it was understood.

WOMEN DRIVERS IN LEAD HERE IS CLAIMED

Motor Builders Considering Fair Sex In Designing Cars

Orange county takes the lead in the proportionate number of women drivers as compared to other parts of the country, according to Robert Atkinson, of the Reid Motor company, local dealer in Chevrolet passenger and commercial cars.

Of the six million or more passenger automobiles in the United States, Atkinson asserts, average registrations show that one car in every twenty-four is owned or operated by a woman.

"Here in Orange county," said Atkinson, "the proportion of women drivers is found to be considerably greater than the national statistics show. In fact, it is the rule in almost every family owning a Chevrolet that some female member drives the car. We are also aware that women often cast the deciding vote in the selection of the car purchased, therefore motor car manufacturers are designing and building cars that are easy to operate and embody features that appeal to the gentler sex."

Look Who's Here

"Taking the national statistics for a basis, there are approximately a quarter of a million women who habitually drive their own cars. They are enjoying the same benefits that have made the automobile indispensable to men. The motor car has extended the limits of their social and business activities. It has made them independent of every other means of conveyance."

"This has come about because the manufacturers of medium-weight cars designed for wide distribution have recognized the necessity for mechanical simplicity. Cars of this type require only a moderate amount of attention and care. Women who own cars of this type are independent of drivers and mechanics. They can not only operate their cars, but make their own adjustments."

Closed Car Favored

"The closed car particularly appeals to women because of the protection afforded for both summer and winter driving. The interior refinements possible in cars of this type also appeal to women purchasers. And in the medium-weight car, these are combined with mechanical dependability and ease of operation."

ANTI-CIGARET LAW VIOLATED IN KANSAS

TOPEKA, Kan., Dec. 24.—Richard J. Hopkins, attorney general of Kansas, formally requested attorneys at Atchison and Shawnee counties to investigate reported violations of the State anti-cigarette law.

Nineteen Atchison men each contributed 10 cents toward a fund for a carton of cigarettes sent as a gift to President-elect Harding, while prominent Topeka women and the local Legion Post are said to have sent cigarette gifts to disabled soldiers at Camp Funston and in the Topeka state hospital.

FISH WORMS FORECAST MILD NORTH WINTER

ST. CATHARINES, Ont. Dec. 24.—A Louisiana street cleaner picked a bunch of ordinary summer flowers in his garden and not even the foliage of the plants had been touched by frost. He took that to indicate that it is to be a mild winter, and his conviction was strengthened when, on pulling up a plant, he found a fish worm hanging to the root, which had only been two inches under ground.

"When you find the fishworms as high up in the ground as that at this time of the year, it usually means a mild winter," said he, "for the fishworms can tell."

ORANGE COUNTY
IGNITION WORKS

Brings a Higher Price When You Sell

It is our experience that people nowadays figure on the possible second-sale value of the car they buy. You don't need to go further than your own locality to learn how the Hupmobile stands on that score.

Owners here always hold their Hupmobiles at prices considerably higher than are paid for other cars that originally cost about the same.

Yet they have little or no trouble in getting what they ask.

People know the average Hupmobile is worth the price quoted.

They know the car does stand up uncommonly well; that it does depreciate less; that model changes are few, and usually of a minor sort that has small effect on the value of cars already in use.

These are real elements of the extraordinary Hupmobile value, and are readily appreciated as such by our buyers.

GOMPERS FLAYS INDUSTRIAL COURT RULE

By SAMUEL GOMPERS
President of the American Federation of Labor.

(Written for the United Press.)
(Copyright 1920, by the U. P.)
WASHINGTON, Dec. 24.—Applauding the newest extraordinary action of the Kansas court of industrial relations.

According to newspaper reports, the Kansas court has ruled that "skilled and faithful employees should be given such treatment as will enable them during the period of limited production to support themselves and their families."

This may be merely a pious wish of the court intended as a suggestion to employers not to stop wages when mills are closed. It may mean that the court intends to force employers during shutdowns to carry on their payrolls their "skilled and faithful employees," the court to determine what employees are to be ranked as "faithful."

Charges Paternalism
In the last case the right of the employer to lay off workmen would be taken from him. In any event the flour mills of Kansas are to be regulated by a committee appointed by the court. No doubt the committee will base its regulations on the principle laid down and quoted above.

Those who applaud this principle are those who have applauded the Kansas industrial relations court since its inception. This ruling is another proof of the fairness of the court and the idea behind this. This principle of government or court regulation of industrial conditions of hours of labor, of wages, is the principle of paternalism in government. It is the idea on which the socialist and communist state is based. The soviet government of Russia started out based on the principle of paternalism. They became slaves.

I do not think the principle of the paternalism a good thing for the people of America.

Do they want the courts to fix the dividends?

End of Union Labor
So employers now seem to be misled into helping the movement towards paternalism. The movement is backed by a certain few big employers who know exactly what they want. Their desire is not paternalism and government regulation of their factories and profits. But they want help of paternalism if they can get it for a time until they shall have established an industrial oligarchy in which they shall be dictators and trades and labor unions shall have been destroyed.

VANDERLIP DENIES SOVIET TRADE OPEN

LOS ANGELES, Dec. 24.—Washington D. Vanderlip, Los Angeles engineer who has just been returned from Russia with a \$3,000,000,000 order from the Bolshevik government for American raw materials and manufactured goods, today branded as "camouflage" the recent announcement from Washington that trade restrictions with Russia have been removed by the state department.

"Trade with Russia is still effectively prevented," Vanderlip declared, "because our government will not permit United States mints to purchase Russian rubles or bullion. Furthermore, actual trade relations cannot be re-established until the United States government consents to arrange for the clearance of ships port and port facilities, postal, telegraph and banking provisions, and consular officers accredited to the ports of Russia."

OPERATION THROWS LIGHT ON BEAUTY'S SECRET OF BOW LEGS

CHICAGO, Dec. 24.—Santa Claus has filled Ruth Gordon's stocking with a straight pair of legs.

Miss Gordon, famed as the "baby talk lady," in Booth Tarkington's "Seventeen," is speedily recovering at a hospital today. "But it didn't hurt near as much as it does to receive visitors in this nightie I am wearing."

The beautiful star alluded to the outing flannel hospital garment she was wearing.

Let Miss Gordon tell why she did it:

"I was walking in a State department store and saw a pair of legs coming toward me in the mirror. They were so funny that I laughed and when I got close—they were mine."

Miss Gordon was reminded that her bow legs didn't show when she appeared on the stage and was told that the public never knew her deep dark secret. "Of course not," she said. "I trained myself to stand so my bow legs would not show."

"The baby talk lady" with her legs all done up in plaster said she hadn't felt so happy in three years. Her youthful husband, Gregory Kelly, who played the boy in "Seventeen," is at her bedside constantly. He approved of the operation.

LONDON FIGHT FAN QUESTIONS TITLE

NEW YORK, Dec. 24.—If all the English authorities figure like Rube Welch, Joe Lynch will not be recognized as the bantamweight champion by the International Boxing Union. Moreover, it will not mean much in the young life of the new champion.

Welch, who has billed the Jimmy Wilde-Pete Herman match for the world's bantamweight championship, perhaps is trying to make his fight good when he says that by weighing in eight hours before the fight the two principals in the championship affair here Wednesday went in at catch weights and the title was not involved.

May Claim Title
If Little Wilde wins from Herman it is very likely that the British will see things like Welch and claim the bantamweight crown for the Welshman.

According to the books, Welch is wrong in his argument about weighing in. The rules of the National Boxing club which govern boxing in England clearly require weights to be made eight hours before the fight. The Queensbury rules provide for weighing in on the day of the bout and rules of the international boxing union make it optional—either eight hours before or at the ring-side.

Recognition for Kilbane
The United States does not belong to the International Boxing Union. Americans objecting to giving equal votes to nations where boxing is not conducted on the scale it is in this country. Internationally the boxing situation is the same as in tennis.

Until last winter when the union was reorganized, Johnny Kilbane had never been recognized as the featherweight champion because he had never defended his title against an European.

When he was placed on the official list of champions it was a direct move for American favor. Since the Americans failed to reciprocate for the concession, the Union very probably will not recognize Lynch.

But as was said, it will mean nothing to Lynch. Kilbane got along very well without the official recognition of Europe. Lynch can go his way in America without considering the other side.

No matter what attitude the Union assumes, he is the recognized champion in America and this is a very large country.

CONGRESSMAN SEEKS TO CURB 'HE VAMPS'

WASHINGTON, Dec. 24.—Representative Frank Clark of Florida declared war on the "he vamp" when he introduced a bill in the house against "mashing" in the District of Columbia.

"Cake eaters," as mashers are termed here, "should be draped about prison cells instead of Washington street corners," declared Clark. "A year on the rock pile is the cure for them. It will make the worst 'he vamp' want to wear blinders for the rest of his natural life."

OPTIMISM NOTE IS VOICED BY FIRESTONE

There have never been greater opportunities than the present for the business house with a loyal and energetic organization. This was the statement of H. S. Firestone, president of the Firestone Tire and Rubber company, in addressing the recent annual stockholders' meeting of the company.

The Firestone organization celebrated its twentieth anniversary by announcing a sales volume for the past year of \$114,980,969.26, an increase of 26 per cent over last year's business.

In the face of what is described as the most difficult and unusual year in its history the Firestone company was able to show after allowance for depreciation and bad accounts, earnings of \$9,396,912.28. Out of this profit the company has set aside \$8,151,749.91 for depreciation on its inventories, thus placing it in a very favorable position for any business readjustments necessary.

More than 2,000 stockholders attended the meeting, most of them employees who have had a share in the business for the past four years through a liberal employees stock-holding plan.

Firestone expressed his confidence in the future and sounded a firm note of optimism by calling attention to the fundamental soundness of the rubber industry through its close affiliation to highway transportation, and how its scope would widen with the consummation of the immense good roads projects under way and assured for the future.

The stockholders re-elected the old board of directors which includes H. S. Firestone, A. C. Miller, J. W. Thomas, J. G. Robertson, S. G. Carkhuff, L. E. Sisler, Harvey S. Firestone, Jr., C. A. Myers, Thom Clements and A. G. Partridge.

At a directors' meeting in the afternoon the following officers were re-elected: H. S. Firestone, president; A. C. Miller, vice president; J. W. Thomas, vice president; Thomas Clements, vice president; S. G. Carkhuff, secretary; J. G. Robertson, treasurer.

The directors approved the construction of an interplant railroad system connected to various factory units and operated with the company's own equipment. This system will have direct connections with the Pennsylvania and Akron Belt Line railroads.

The directors voted the regular quarterly dividend on preferred capital stock, 6 per cent payable January 15 to stockholders of record January 1.

FIGURES SHOW AUTO INDUSTRY IN LEAD

Do you appreciate the real magnitude of the automobile industry? Most people don't and largely because they haven't had some of the startling facts regarding this mammoth part of our national life called to their attention. In a hazy sort of a way the very fact that we spend about one-quarter of our lives dodging automobiles or riding in them gives us the impression that there certainly are a lot of them, but it takes solid, meaty facts to imprint the thing indelibly on our minds. Wherefore we present a few figures that will give something to think about some busy afternoon. Just for instance—do you know what were the finished products turned out in the largest quantity in 1919. Listen—

First—Motor vehicles valued at \$1,885,122,546.

Second—Boots and shoes valued at \$1,058,714,500.

Third—Newspapers and periodicals valued at \$1,046,452,280.

Fourth—Broadstuffs valued at \$1,037,894,282.

The total number of people employed in the automobile industry in 1919 was 300,000 and the amount of wages paid them was \$347,933,856. The amount of capital invested was \$1,015,430,388. The total amount of revenue brought in by registration and taxes in 1919 was \$64,043,773.30.

These figures are almost too large to be comprehensible to the average man, but if you stop and think a while and take a pad and pencil and figure out how long it would take you to earn that much money at your present rate of income you will really get some idea of the size of the business.

DIAMONDS SPILLED AMONG SHOPPERS

SEATTLE, Wash., Dec. 24 — Eddie Thomas, 20 years old, Canadian, smashed two plate-glass windows and spilled more than \$5000 worth of diamonds in the midst of a throng of Christmas shoppers on Second avenue in an effort to get away with a tray of diamonds snatched from a jewelry store window through which he had thrown a brick, according to the police.

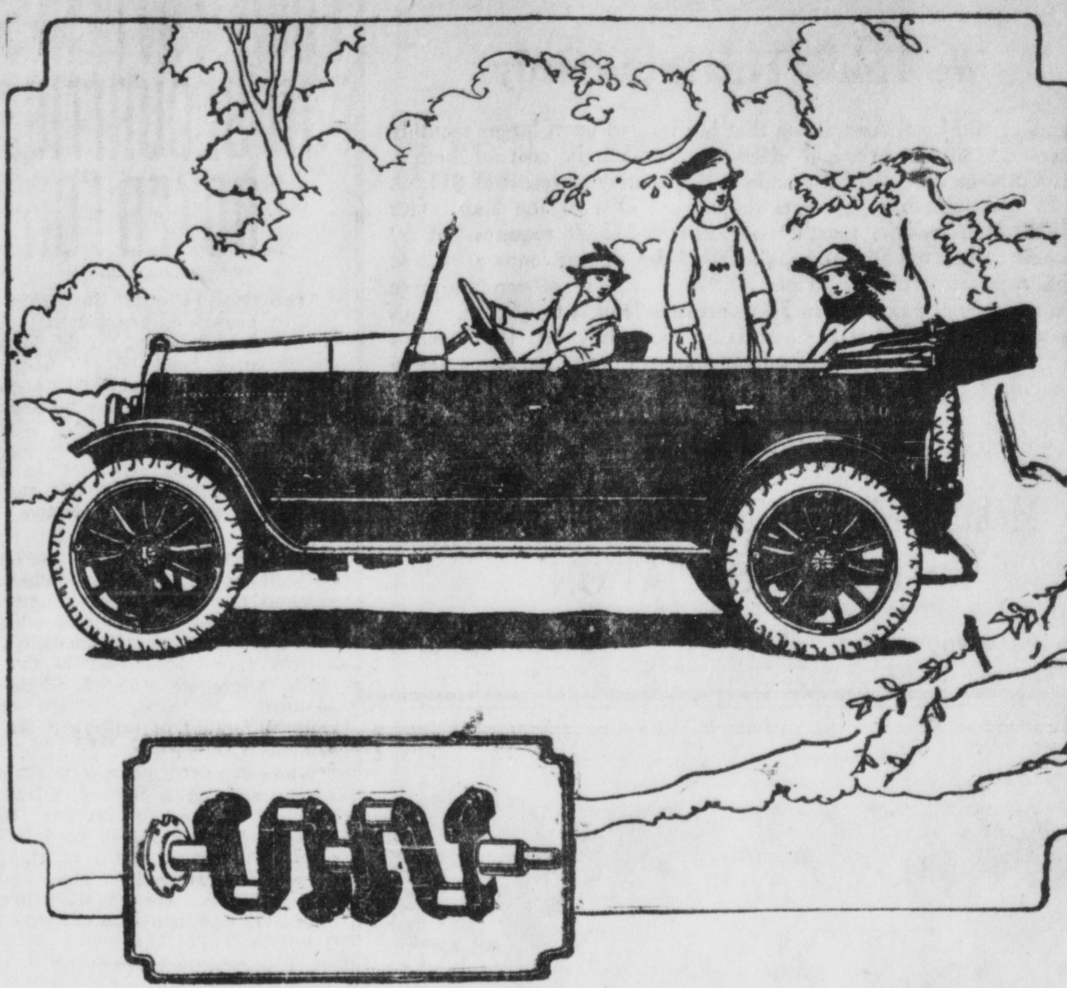

Police said Thomas hurled the brick through the window while hundreds of shoppers were passing the store, seized the tray and started to run. He was caught by G. L. Ridean, manager of a restaurant, and disarmed after drawing a gun. In the scuffle both crashed through the big window of a haberdashery.

When the tray was recovered and a check made of its contents, it was found to be short diamonds valued at more than \$5000, the jewellers said.

BRAZIL TO HELP RUBBER COMPANIES

RIO DE JANEIRO, Dec. 24 — To alleviate the distress in the Amazon region, where the low price of rubber has caused appeals for assistance, the government proposes to facilitate the operation of the larger companies manufacturing rubber goods and also to offer inducements to small concerns. It also proposes rubber producing areas.

NEW BRISCOE The Leader of Light Weight Cars

COMMENT is often made about the remarkable getaway of the New Briscoe—always in the lead like a scared rabbit when the go-ahead signal is given.

Touring Car
Four-door Sedan

The crankshaft, illustrated above, is one of the main reasons for this. It is heavily counterbalanced with scientific exactness. This permits the use of a lighter flywheel, the whole construction giving greater flexibility, smoother power impulses and almost complete freedom from vibration.

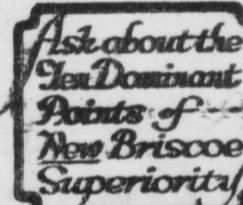

This is just one of the ten dominant features which have made the New Briscoe the sensation of motordom. Let us tell you about the others.

Why Essex Set a World Sales Record

There is no secret back of the Essex triumph.

It made the issue of finest car quality, without useless size or weight. That issue is uppermost today. For fine performance, durability and economy of upkeep and operation are more important now than ever.

And with the Essex you sacrifice no pleasure, comfort or performance ability that the large, high-priced car can give. Judge by trial. Match its speed, hill-climbing ability and riding ease with any.

Your own experience will

confirm the endurance and performance by which Essex accomplished its unrivalled records of travelling 3037 miles in 50 hours and in 4 times breaking the transcontinental record between San Francisco and New York, its fastest trip being 4 days, 14 hours and 43 minutes.

The Essex has won its position because it fills a want that can be supplied nowhere else. It has met no competition because it fills a field to itself. Everyone who has ever ridden in an Essex knows why no rival challenges its leadership.

We Think This Is the Only

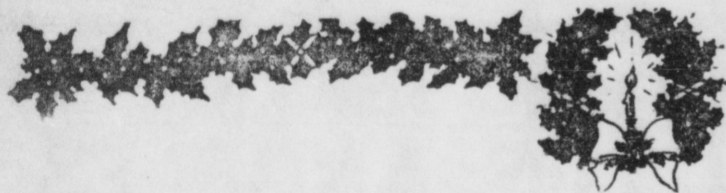

Building and Loan Association that has insisted upon larger monthly payments on the principal since the advance in cost of homes. \$1,000 loans were formerly made at the monthly payment of \$11.50. It took 78 monthly payments to pay off 50% of the loan. Our \$1,000 loans with a monthly payment of \$15.00 requires but 50 months to pay off 50% of the loan. Many of our loans are made with a payment of \$17.50 per \$1,000 loaned, in 40 months these loans are 50% paid, and in 72 months the loan is fully paid. This has been the policy of the association since July 1st, 1919, and a sharp decrease in the cost of building will still leave our loans amply secured.

LOWER INTEREST IN SECURITIES LOOKED FOR

"The time in which investors can pick up securities bearing high rates of interest is short," said Edward McWilliams, head of the bond department of the First National bank, today. McWilliams has just returned from Chicago, where he went upon his annual visit to the East for the purpose of keeping himself in close touch with bonds and stocks and the markets concerning bonds and stocks.

"The general feeling in the East," he said, "is that the bonds have touched their low market, and that lower interest rates and higher prices for bonds can be looked for."

McWilliams said that in the big cities where he stopped, Christmas business was brisk. There was a general feeling of optimism for the coming year.

When McWilliams was in Chicago a year ago he experienced freezing weather all the time he was there. This year weather was good in Chicago until last Saturday night, when a freeze-up arrived. He started home Sunday. He travelled through blizzards and snow in Kansas and Colorado.

Southern California

PASADENA—Zane Grey, novelist, came near personally participating in as thrilling a battle as any he has ever written when a burglar attempted to enter the Grey home in Altadena. Grey was awakened by a burglar jimmying a window. He secured a revolver which he emptied at the intruder as the latter sped down Marengo avenue. The matter was reported to Constable J. C. Sosey here.

TAPT—The "unloaded" gun claimed another victim here when 7-year-old Joe Davis, son of Mrs. Angie Davis, was shot through the abdomen and seriously wounded by Dan B. Coffman, 17 years old, son of B. H. Coffman. The accident occurred as the boys were playing with a revolver.

PASADENA—Robert Reniff, 11, was enrolled upon the constantly growing list of lads who have been struck by rolling stones in nearby canyons recently. Reniff was treated at the Emergency hospital for slight injuries received while on a trip after holly. Two boys have been killed and many hurt here in similar accidents.

POMONA—Bids were received by City Clerk Thomas R. Trotter of both the new fire hall and police station building and on the contract for the removal and disposal of garbage and rubbish. Sealed proposals on the municipal building are in the clerk's hands and will be opened at the council meeting.

PASADENA—As the result of injuries received supposedly when he was "hanging on" a truck in Lamanda Park, Wallace Stooksberry, 14 years old, died here. The lad was hurt last Monday, when he was either riding on or clinging to the truck of W. E. Morgan. The boy was the son of Mr. and Mrs. D. C. Stooksberry of 423 Oak Knoll avenue.

IMPERIAL—Since it has been demonstrated by actual test that Rhodes grass will grow successfully on alkali land, the directors of the Chamber of Commerce at their last meeting took action which will convey the information to every owner of barren land of Imperial with the view to getting the entire area under cultivation at the earliest possible date.

LONG BEACH—Construction of the city hall and the water system will be undertaken without delay. Mayor W. T. Lisenby has asked permission to sell the remaining \$400,000 water bonds, as he desires to take advantage of a more favorable money market and a lowering price of water pipe.

Dance with us Saturday nite and Sunday afternoon. Balboa Pavilion.

NEW PLANS LAID FOR FARM CENTER MEETING AT GROVE MONDAY EVE

In addition to the meeting of the sugar beet growers at the Garden Grove farm center Monday evening a special program of speaking and music has been prepared, according to announcement from there today. Election of officers for the ensuing year will also take place. The meeting is to be held at the Garden Grove theater.

H. B. Woodrough, chairman of the Farm Bureau membership campaign, is to speak on the national and state federation of farm bureaus and methods of bettering the conditions now existing in agriculture.

Several important committee reports are to be read. They will be on the Farm Bureau directors' meeting and on the progress of the Garden Grove drainage district. Every one is invited to attend this meeting, which is expected to be of great interest to farmers of the Garden Grove district.

2-CENT TARIFF ON LEMONS, IS PLEA

The matter of securing an adequate tariff on imported lemons is now receiving the attention of the Senate Finance committee and the Ways and Means committee of the House at Washington, it was learned today. According to telegrams received at the Los Angeles Chamber of Commerce from Senator Hiram Johnson and Congressman Osborne, a strong plea is being made to raise the proposed rate of 1 1/2 cents a pound to 2 cents.

Appeals from G. Harold Powell on behalf of the Citrus league, and from the various chambers of commerce and citrus associations throughout Southern California, have been sent to the congressmen at Washington. They have pledged their hearty support.

Congressman Osborne has wired the associations that they should have all data upon which to base their pleas for a higher tariff prepared to present to the Ways and Means committee hearings to be held between January 6 and February 18. Hearings on schedule G of the bill, which concerns fruits and nuts, will be held from January 21 to 24.

The Consolidated Freight Bureau of Southern California is considering a proposed emergency freight rate, reducing the freight on lemons from \$1.65 cents a box to \$1. If this is granted, and the tariff is placed at 2 cents, the growers say the product will be saved. Action in the Senate is expected tomorrow.

VETERAN RAILROADER BURIED IN BAY CITY

SAN FRANCISCO, Dec. 24.—Funeral services were held here today for Henry Clay Martin, pioneer western railroad construction foreman and locomotive engineer, who died at Vallejo Tuesday.

Martin, known by his friends as "Black" Martin, ran the first locomotive into Los Angeles and the first one from the West into El Paso, according to records of the Southern Pacific company.

SERVICES TO HONOR 25-YEAR RECTORSHIP

ONTARIO, Dec. 24.—Members of Christ Episcopal church are looking forward with eager anticipation to next Sunday, when special services are planned in honor of the twenty-fifth anniversary of the rectorship of the Rev. Richard H. Gushee.

Bishop Joseph Horsfall Johnson of Los Angeles is to be here for the occasion. There will be a pontifical mass at 11 a. m. and Bishop Johnson is to preach.

The event is expected to attract a large number of visitors, as Father Gushee is known and loved all over Southern California and Arizona, and festival occasions at Christ church always result in a large number of pilgrims from many points.

NEWPORT BEACH FISH CANNERY IS LEASED

The Newport Fish cannery, which has stood idle since its completion several months ago, is expected to open early next year under the management of a group of Long Beach and Newport men who have secured a lease on the property from Mrs. M. F. Loman, of Santa Ana, according to announcement today by Mrs. Loman.

The cannery will operate under the name of the Newport Packing company. A new process of preserving fish, the invention of M. Lebo, of Long Beach, one of the men interested in the cannery, will allow for the operation of the plant the year 'round. Lebo says the preserving process does away with the necessity of closing down while waiting for the runs of various fish as has been the practice heretofore in all coast canneries.

Louis N. Wheaton, former mayor of Long Beach, Lebo, and Charles Wallace, brother of Lew H. Wallace of Newport Beach, are the men whose names are linked with the new concern. Wheaton is to be secretary and treasurer of the company; Lebo, a practical cannery man, will be vice-president and general manager of the plant. Wallace will probably have an official place in the organization. Mrs. Loman said she understands that considerable Newport capital is interested in the venture, and that a Newport Beach man will probably head the organization.

Plant Complete
The cannery was completed and fully equipped several months ago, but no effort has been made to operate. The plant is "aid to be one of the most complete on the coast. There is a fertilizer plant in connection with the cannery and there is said to be a heavy demand for this by-product.

It is said the lease on the plant contains an option to buy and the present holders have already applied to the State Corporation commission for permission to issue notes with which to raise the purchase price. The amount of money involved was not made known.

The cannery is expected to open on a small scale and gradually work up to full capacity. When in full operation the plant will require a working force of about 100 persons, Mrs. Loman says.

LOOKS LIKE REAL WELL

RIVERSIDE, Dec. 24.—Dr. Erick Stark, geologist in charge of the Brawley oil well, near the Riverside county line, after visiting the property Sunday stated, "If the well was in a green field I would say it will come in at 20,000 barrels—out here I know it is a splendid well and you must get ready for a big paying proposition." While he would not dare a prediction as to what the well would do, Howard Shores, secretary of the Imperial Oil and Development association, owners of the well, says that his information is that the well will produce 5,000 barrels. Dr. Stark instructed that the present casing be replaced with heavier pipe and that the hole be made for six inches at the bottom. The sand is shown to 36 feet in depth. This being the strata in which the oil is stored.

PIPE LINE TO TAP EDMONTON FIELDS

EDMONTON, Alta., Dec. 24.—The first move in the direction of pipe line construction in and from the oil fields north of here has been made by interests connected with the Imperial Oil company and presumably in the latter's behalf, it was learned here.

Notice is given in the current number of the Alberta Gazette that at the forthcoming session of the Legislature a petition will be presented by Charles E. Taylor, Joseph Carr, Walker L. Taylor and others for a private bill incorporating the Imperial Pipe Line company, to seek power to acquire lands for pipe line building and the transmission of petroleum.

LOST—Light weight auto robe, between Orange and Santa Ana. Return to Auto Club of Orange Co.

FOREIGN DIPLOMATS AROUSE IRE OF U. S. STATE DEPT. HEADS

WASHINGTON, Dec. 24.—For the second time within two weeks the state department today was faced with the question of foreign diplomats "going over its head."

In both cases the diplomats have gone to senators without the formality of working through the department, which is regarded as a breach of diplomatic custom.

The first incident involved Guatemala and resulted in the state department demanding an explanation from Julio Bianchi, Guatemalan minister, as to his action in discussing foreign affairs with Senator Moses. Bianchi apologized and the apology was accepted.

Today's difficulty involves Great Britain, the result of the British embassy having addressed a communication to Senator Kellogg, calling his attention to a denial that England was delaying American cable messages.

State department officials were expected to confer today on the action of the British embassy.

3 MEN ARRAIGNED ON CRIME CHARGES

Three men were arraigned today in the superior court here, informations having been filed against them following their preliminary examinations.

James M. Gordon, arrested in San Diego two weeks ago, is charged with looting the home of E. Haas of Anaheim. He is alleged to have removed \$1000 worth of silver and jewelry, part of which has been recovered.

Raffilo D'Tennorio, of Anaheim, is charged with burglary. D'Tennorio is the Mexican who is said to have smashed the window of a bicycle store at Anaheim, seized two guns, and to have proceeded to hold up John Heitshusen, Jr., a deaf and dumb resident of Anaheim. D'Tennorio was arrested after Heitshusen had seized his hands and rushed him into a nearby barber shop.

The third man is Stanley Whitworth, alias S. Gilbert, former salesman for the Cope Electric company, who is charged with embezzlement in connection with a fraudulent sale of a washing machine to the Rev. P. F. Schrock.

WOULD REPEAL PART OF INCOME TAX LAW

WASHINGTON, Dec. 24.—A bill designed to repeal certain provisions of the income tax law was introduced by Senator Fletcher, Democrat, Florida, who said speculators in stocks, bonds and agricultural products on margins were now permitted to deduct from their net income losses sustained by reason of such transactions.

His measure would forbid such deductions.

Latest From Oil Fields of Orange County

By ELWOOD J. MUNGER

DRILLING EIGHT AND HAS THREE LOCATED

HUNTINGTON BEACH, Dec. 24.—The Standard Oil Co. is leading the development work in the Huntington Beach field with eight wells drilling, and locations for three new wells.

On the Bolsa property, No. 1 is being cleaned out in preparation to go on production again. Bolsa No. 2 and No. 3 have been located and rig building has commenced.

On the Huntington property, No. 3 is drilling, No. 4 is testing water at about 2800, No. 5 and No. 6 are both drilling, Nos. 7 and 8 are new wells. Huntington B-1 drilled to 2,000 feet is making a water test.

Torrance No. 1 is still drilling is now a deep well. Surf No. 1 is looking better even though it is a deep well.

The Texcal Oil Company is busy cleaning out to bottom at 2350 and will put in the ten-inch casing as soon as the hole is in condition.

The Vista Del Mar is now drilling at 1675 feet, the formation is a sandy shale showing a little gas and some colors.

West Whittier at 2200 The West Whittier Oil Company has been making some good drilling progress during the past week. The log of the well shows 2200 feet in the brown shale. At 2100 feet the familiar tar sand was struck.

The Ventura Oil Company, backed by Scott and Wooley, started drilling early in the week and the well shows 450 feet of hole. The drilling is under the management of the Orange County Drilling Co.

At Newland No. 1 the Union Oil Company drilled out the cement plug set at 3150 feet and is testing for water. At Dillingno No. 1 everything is in readiness to spud in and start drilling.

Fowler No. 1 is on a rig. Huntington No. 1 drilling in hard sand at 2200 feet. Huntington 2-A is rising up.

Drilling Reports Belle of Montebello is building a rig on one of the smaller tracts. Eddystone Oil Corp. has about completed rig building on the Ashton property and will start drilling as soon as the rigging up work is completed.

The Keck Drilling Co. has cemented its well at 2100 feet. The Huntington Central is rigging up and will start in a few days.

The Long Beach Gas and Oil Co. drilled 400 feet of hole and is now shut down waiting on tools.

On drilling out the cement at 2650 the Mid-Central finds that it failed to get a shut off on the water and will re-cement.

The Petroleum Midway is about rigged up and ready to start drilling on the Columbia No. 3 property. The Republican Petroleum is rigging up.

CORONA WELL LOOKS GOOD CORONA, Dec. 24.—At 2365 feet the China Corona United struck the hard shell that has slowed the drilling considerably. The Corona well is still showing a lot of gas and occasionally some colors. Altogether the well is a good looking wildcat.

DEEP SAND ON KRAEMER RICHFIELD, Dec. 24.—At Kraemer 1-5 the Standard Oil Co. unearthed a deep sand at 3880 and set pipe at that point. The showing is reported to be good. The Standard's Vejar drilling at 4180 is not showing any oil.

GENERAL PETROLEUM HOLDS SECOND PLACE RICHFIELD, Dec. 24.—The General Petroleum continues to hold second place for the largest number of wells drilling in the Richfield-Placer district, and is one of the most successful. Thus far the General Petroleum has not drilled a dry hole. Preparations are now under way for the bringing in of Yorba Linda Water Co. No. 1 at 3450. The well has been showing some oil in the shale and the indications point to a small well at best.

TO REDRILL AND DEEPEN. RICHFIELD, Dec. 24.—After allowing the Carpenter No. 1 to produce a couple of months, the well failing to clear up and lessen the water and emulsion content, a decision was reached to redrill and deepen the well. It is now being cleaned out.

CONTROL OF JAILS SOUGHT BY MASS. BOSTON, Dec. 24.—Passage of legislation transferring control of the county jails to the state by the next state legislature was confidently predicted by Republican Leader B. Loring Young of Weston at the annual meeting of the state probation officers.

Centralized control and uniformity of administration of the jails is as feasible as that of the state insane hospitals. Representative Loring pointed out. He also promised legislation to defective delinquents.

BACHELOR SUGGESTS 2 WIVES FOR FARMERS DENVER, Dec. 24.—Here is the latest marriage idea suggested to Governor Shoup of Colorado by a lonesome bachelor farmer. In the letter George Smith, in brief, writes: "I am a farmer and unmarried. You are a good state governor and in the hope of originating some help to farmers I am offering you a plan in which you can lead all governors in the country if you can get it made a law. My plan is, let city men have one wife and the farmers have two wives."

UNION OIL BRINGS IN A 250-BARREL WELL

PLACENTIA, Dec. 24.—The Union Oil Company's Dorsey No. 1 came in the early part of the week a 250-barrel well. The well is making some water with this production. The depth at which the new producer was completed is given at 3400 feet.

On the Chapman property, No. 4, the latest completion, has settled down to a 120-barrel well. Chapman No. 5 is now 4000 feet deep drilling in brown sandy shale. Chapman No. 7 at 4080 is in the same formation. Shepard No. 1, another of the Union's deep ones, is 4475 feet and the brown shale is not showing anything.

Chapman No. 1, the famed gusher, took a little drop the first of the week and is now down to 735 barrels.

Morse No. 2 is proving a wonderful well, holding the production steadily at 1060 barrels.

J. W. Newell No. 2 was given a try out on production a few days ago at 3400 and produced 100 barrels. J. W. Newell No. 1 cleaning out and drilling at 3171 shows a tendency to flow and made 75 barrels recently.

SEE ENCOURAGEMENT IN WELL NOW 3300 NEWPORT BEACH, Dec. 24.—The Coalinga-Mohawk No. 1, now drilling at 3300, is showing up more like an oil well than it ever has before and really looks quite encouraging. At 3198 the formation, a fluffly sand resembling oil sand very closely began showing gas and colors.

The H. T. & K. Syndicate is testing out for the results of a water shut-off recently made at 2500.

The Interstate's Mesa No. 1 is hung up with a fishing job at 2825. Prior to the fishing job the well had been looking very good. Nothing has been done during the past week on the other three wells of the Interstate.

The Liberty Petroleum's test well at Newport has stood cemented now for a number of weeks and will be tested out for a water shut off at 2100 feet in a few days.

WATER IS SHUT OFF IN MISSION VALLEY WELL SAN JUAN CAPISTRANO, Dec. 24.—The Union Oil Co. has had no difficulty in shutting off water at 3350 feet in its wildcat well on the O'Neill Ranch, the only well drilling in this vicinity. After the water was shut off drilling was resumed.

AMALGAMATED WILL DRILL ON PAGE LEASE RICHFIELD, Dec. 24.—On the Page property the Amalgamated Oil Co. is making preparations to start a new well. The Page property adjoins the Breen and is regarded as one of the good prospects in the center of the Richfield district. Breen 1-A now stands cemented at 3107 feet. Mann No. 1 is drilling in shale and boulders at 2450. Potter No. 2 is at 550.

Drilled to 3085 feet the Bixby Ranch Syndicate met with a little pipe trouble that resulted in a redrilling job, now at 2935.

EXPECT PRODUCTION IN TRAVIS WELL RICHFIELD, Dec. 24.—Drilling in brown shale at 2385 the Fullerton Oil company's Travis No. 4 is beginning to show some gas and good strong oil colors. Present indications warrant the prediction of production soon.

At the Anaheim Union well good progress is being made. New hole is now in the making at 3365, the formation being a very hard sand. The Fullerton intends to duplicate some of the Standard's deep Kraemer producers at A. U. W. 1.

WELL NEAR PARK IS NOW IN BLUE SHALE ORANGE, Dec. 24.—Drilling by the National Security company near Orange County Park is going a little slow. At 625 feet the formation is blue shale. The work is being done with cable tools.

On testing out its recent cement job at 3000 feet the Olive Petroleum company finds that the work has proven a failure and must be done over. The well will be re-cemented the latter part of the week.

BRADFORD BROTHERS NO. 1 IS 60 BARRELS RICHFIELD, Dec. 24.—The Petroleum Development company's Bradford Bros. No. 1 is now on the pump at 3680 and making 60 barrels net oil. Bradford Bros. No. 2 brought in at 3700 feet is doing about 50 barrels net oil. No. 3 is held up with a finishing job at 1600. Bradford No. 3 is drilling in shale at 3800 feet and is not showing any great encouragement. No. 1 is sidetracking some pipe at 3800. Richfield No. 2 is a completed rig ready for rigging up.

NEW WELL LOOKS GOOD FOR 200 BARRELS RICHFIELD, Dec. 24.—The Richfield Consolidated Oil Company's No. 2 sprung a little surprise by shooting oil over the crown block while waiting for a string of tubing to be put in. Drilled to 2900 feet, the last 90 feet of hole was all oil sand. The well looks good for at least 200 barrels. The tubing is being removed from No. 1, and will be put in the new well. It is the intention to deepen No. 1 a hundred feet carrying it down to the same level as No. 2.

The opening and drilling out of the cement the latter part of this week at the Richfield-Yorba will be watched with a great deal of interest. The well was cemented at 3050 and at the time the cement plug was put in the well was showing up rather good. The management now figures for an oil well.

Gets Showing and Sets Pipe Soon after leaving 2800 feet the Richfield United's well began to show up rather good, and it was decided to set pipe at 2980. The well is now standing cemented.

SANTA ANA CANYON WELL IS ABANDONED OLIVE, Dec. 24.—After drilling to 4165 feet and finding nothing that would warrant going on the Santa Ana Canyon Oil Co. is abandoning Crowther No. 1. At the time the drill stopped the formation was a fine white sand, a water sand with no indications of oil whatever.

While the outcome of the Santa Ana Canyon Oil Company's first well is a disappointment, it is understood that the company will not quit, but will drill another well in some other part of the field.

Spudded in in July, 1919, Crowther No. 1 represents a year and a half's work and an expenditure of \$50,000.

CAL. GROWERS HIT BY OLIVE PRICE CUT SACRAMENTO, Dec. 24.—With olives selling on the New York market for prices which will not pay the freight on the shipments, the industry in California is threatened with heavy losses unless some plan is developed to deal with the situation.

The solution says Joseph Guidera of the Pacific Fruit Exchange, is the manufacturer in California of olive oil, a staple production which is not dependent upon the whims of a temporary market.

Olives recently sold in New York for as low as 65 cents a lug box in car lots. The average has been around 90 and 95 cents, and in only a few instances has the price been above \$1. As it costs 84 cents a lug box for freight, the growers position is easily realized.

With olive oil selling for \$3.50 a gallon, and the ordinary lug box in car lots, the average has been around 90 and 95 cents, and in only a few instances has the price been above \$1. As it costs 84 cents a lug box for freight, the growers position is easily realized.

There has been a demand but only a limited demand, for green olives by Italians in the East. They use a salt process in preserving them, but the olives must be strictly green. The price paid for this kind of fruit has ranged around \$5 and \$5.50 a box. However, the demand is so limited it cannot be reckoned as a factor in the market.

TRAINER OF TIGERS TURNS TO CANARIES NEW YORK, Dec. 24.—Among the trainers and exhibitors at the canary show of America is Joseph Hamlich, who began life as a trainer of tigers. Now he is as busy as can be teaching canaries to sing and talking through the sides of the glass tanks to the goldfish.

"I just never could give up this life of animal training," he declares. "There are 1000 of these canaries here and sometimes, when they all get to singing, I kinda miss the tigers." The show furnishes a pretty loud concert all the time.

U. OF C. IN DRIVE TO GET FUNDS FOR \$1,000,000 STADIUM BERKELEY, Dec. 24.—A tentative plan for financing a million dollar stadium as a home for athletics at the University of California was evolved at the annual banquet of the Berkeley Manufacturers association recently.

The Berkeley Chamber of Commerce and other civic organizations have pledged their support in putting over the project.

Arrangements are now being made with the University of California, Robert C. Sproul, Controller of the University and chairman of the committee said, he believes the plan as outlined at the meeting will be acceptable to the university authorities.

According to the plan adopted 10,000 non-interest-bearing certificates of value of \$100 each will be sold to finance the structure. Those certificates will be redeemable in tickets to athletic events held on the field.

Wells Drury of the local chamber of commerce stated that through the efforts of President Barrows of the University and Graduate Manager Luther Nichols arrangements will be made to usher in a new era of East-West athletic events between the champions of the track and gridiron of the big universities of other states. The impossibility of handling large crowds in the present athletic quarters has heretofore made this impossible, added Drury.

L. A. LEGION HITS PROFITEERS IN RENT LOS ANGELES, Dec. 24.—The activities of Los Angeles post of the American Legion, with its membership of 5,000, promise to cut short the period of exorbitant rents in this city and bring the landlords of apartments and suburban homes back to reasonable terms.

Through its committee on rent profiteering, this Legion post investigates all cases of trouble between tenants and landlords, in which Legionnaires are involved and endeavors to clear up the situation according to principles of justice.

The Legion members, backed up by a number of civic bodies, are credited with bringing about a slight decrease in Los Angeles rentals within the last few weeks, and expect to effect still greater reduction.

THEATER FOR LITTLE FOLKS AT SAN DIEGO SAN DIEGO, Dec. 24.—The kiddies of this city will soon have their own Little Theater, where every Saturday afternoon children motion pictures and playlets will be given.

The movement for the children's theater is being backed by the Parent-Teachers association and is being brought into fruition by Leslie H. Carter as director and Mrs. Florence Herzinger as assistant director. Carter has previously established such theaters in many other cities. The city superintendent of schools, the community service, local business men and many other organizations are lending their co-operation.

The Little Theatre will be self-supporting and almost a non-profit organization.

It is proposed that the theater be built in Balboa Park, one of the city's finest recreation centers.

PEANUT MEN PLAN TO INCREASE CROP RIVERSIDE, Dec. 24.—The Corona district will ship this year from 75 to 100 tons of Spanish peanuts according to J. M. LeFever, a grower who has 20 acres of these "goobers." LeFever intends to put 125 acres of these peanuts in next year.

LeFever claims to have great success with this variety of peanut. He said he picked out one peanut plant in his field this season on which he counted 249 marketable nuts.

**SEASON GREETING FROM
GERRARD BROS.**

We wish you a Merry Christmas and a Happy New Year.

If we have contributed anything to your happiness and well being we are heartily glad of it. If we have failed to do so it is our greatest regret.

We hereby pledge ourselves to be of the greatest possible service to you and yours during the new year.

GERRARD BROS.

SCIENTISTS TO SEEK SECRETS OF AMAZON

PHILADELPHIA, Dec. 24.—A party of chemists and scientists, headed by Dr. H. H. Rusby, dean of the school of pharmacy at Columbia University, will sail shortly for a scientific exploration of the Amazon Valley, in a quest for new plants and drugs of medical value. A government expert in entomology, an authority on ichthyology from the University of Indiana, and experts from other institutions will accompany the expedition, which is expected to last a year. New species of reptiles, fishes and insects will be sought by the party which is being financed by the H. K. Mulford company, manufacturing and biological chemists here.

Will Descend Amazon
The general route will be the country along the base of the Andes from Villavieja, southeast of Bogota, to Calabar, several hundred miles south. Here land travels will be abandoned for the descent of the Umanes river. On reaching the Rio Negro, the party will descend to its mouth at the Amazon, and ascend the Maderia, the largest southern tributary of the Amazon river. Frequent stops will be made and collections of plants and drugs taken in the mountains.

While the primary object of the expedition will be the search for new drugs and plants and their study, special attention will be paid to habits of natives expected to be encountered there, snake poisons, and particularly the manufacture of blown gun and arrow poisons. A very superior quality of rubber said to flourish there will be closely examined and specimens taken by specialists on that subject.

Plan Expensive Trip
Elaborate preparations have been made for an exhaustive study of the plants and drugs. According to present plans, Dr. Rusby will classify botanically all collections. Microscopic study will be made by Professors Ballard of Columbia, Schneider, of Nebraska, and Newcomb of Minnesota. Professors Army of Columbia, Jordan of Purdue, and Sayre and Haverhill of Kansas will ascertain chemical values. Physiological and medicinal properties will occupy the attention of medical men from Yale, Harvard and other large colleges.

As six months are expected to be spent in sections entirely isolated from civilization, an ample supply of food and medicine will be taken along. Quinine in bismutate form will be an important item, as this alkaloid is said to offset malarial fever. While intending to bag only such game as comes within easy reach, the party will be well armed to guard against possible native hostility. Aborigines at Calabar and along the Umanes are reported to have shown marked hostility toward the whites.

FORESTS SHOW BIG FINANCIAL PROFIT

WASHINGTON, D. C., Dec. 24.—In spite of the fact that a depleted and overburdened personnel made it necessary for the Forest Service to refuse at some places to take on new business, the receipts from the National Forests in the fiscal year 1920 exceeded those of 1919 by \$435,067.42 and set a new high mark of \$4,793,482, according to the annual report of Chief Forester W. B. Greeley. The year was also marked by one of the severest and most protracted fire seasons ever known, which necessitated the expenditure of considerable sums for the protection of the National Forests and required a deficiency appropriation of \$2,950,000 in addition to the regular funds provided for the purpose.

"The increase in receipts from timber sales," says the report, "reflects the increasing demands being made upon the National Forests as privately owned timber is exhausted and the forest industries move westward. If funds are provided for the examination and sale of National Forest timber now in demand, the receipts from timber sales may be expected to increase still more rapidly until the cut reaches the limit that must be imposed to maintain a continuous yield from the forests and give stability to the industries and communities dependent upon them," says Greeley.

It is pointed out that while the receipts of the National Forests have increased 95 per cent from 1915 to 1920, the total appropriation for the Forest Service, exclusive of deficiency fire fighting funds, has increased only 8 per cent. The receipts for 1920 were 10 per cent greater than for 1919 and an equal increase for the current fiscal year may be expected, the report states, unless too much new business has to be rejected on account of lack of funds and trained employees. The appropriations for the current fiscal year, it is pointed out, were increased only 3 per cent.

APPLY GREASE WHEN CAR GOES TO STORAGE

Preparing a car for storage does not consist only of running it into a garage, jacking up the four wheels, and draining the radiator. Unless the whole mechanism is given an adequate amount of attention depreciation may be remarkably high. As a first step it is necessary to give the car a thorough cleaning. For the unpainted and tarnishable metal parts of the car no protective coating is better than ordinary grease or vasoline, but it is essential to have these parts thoroughly dry before applying them, for otherwise rusting may occur beneath the grease. Lamps, instruments of the cowl boards, your tools and jack, springs, steering knuckles and the like should all be given a generous coating.

If you have wire wheels and find that some of the spoke enamel has chipped off, grease the bare spots, and observe the same procedure with the car body and fenders. Go over the whole car.

GUNBOAT ADDS JOY TO MEXICAN'S LIFE U. S. ADDS TROUBLE

SAN FRANCISCO, Dec. 24.—Jose Delallave hailing from across the Rio Grande, is like a more famous compatriot "on the horns of dilemma," only this time it isn't a bull but a gunboat.

Delallave arrived in this city with a large unearned increment which he didn't know what to do with. Being a youth of romantic ideas he decided to buy something big and worthwhile. Wandering along the San Francisco waterfront, he saw the Marblehead, a broken-down American gunboat. Ah, this was what he wanted. This should be the nucleus of a merchant marine for Mexico. He soon made arrangements with a shipbroker and purchased the ship receiving a bonafide bill of sale.

With the remainder of his money he bought paint, provisions and hired a crew, renaming the ship *Agua Prieta*. Then he started for Mexico; but local federal officials stepped in then and resurrected a law, which says that certain things must have a license from the state department before they may be exported to Mexico. In this list are gunboats.

Delallave protested that he bought it for a merchant marine and therefore it became a merchant ship, but the local custom officials failed to see the point; so Delallave sits on the horns of dilemma while Washington works out some solution of giving him its official stamp to his efforts to starting Mexico's merchant marine.

Southern California

SAN DIEGO—More than 29,000,000 pounds of seafoods were taken into the port of San Diego by the port's fishing fleet between January 1 and November 10, 1920, according to a statement made by A. L. Manahan, State Fish Commissioner.

RIVERSIDE—Four oil wells in Riverside County are now spudded in, and in a couple of months will probably disclose whether there is oil in that section. The Painted Hills company is drilling near Whitewater, the Moreno Oil company just north of the Jack Rabbit trail. The Riverside Oil company between Banning and Beaumont, and a Long Beach company on the Middletown ranch in Lakeside. A Fullerton concern will drill south of Beaumont, near the Wolfskill ranch. The Banning Oil company will drill near Painted Hills.

LONG BEACH—Long Beach has a United States weather bureau at last. George D. West, of 2222 Elm avenue, knowing the city's need for weather equipment, through former connections with the department at Washington, has obtained equipment for the establishment here of a complete weather bureau service. According to West the rainfall here on Sunday night measured .69 of an inch.

BAKERSFIELD—Five fires, believed of incendiary origin, kept the Bakersfield fire department busy yesterday. Although no damage was done, a vast amount of property in the heart of the city's business district was endangered. The fires, starting in each instance from rubbish boxes, were discovered immediately and extinguished before gaining headway.

EL CENTRO—The Imperial Irrigation District received a message from A. P. Davis, director of the United States Reclamation Service, stating that "there is no immediate cause for alarm" over the application of the Southern California Edison company for a permit to develop 2,500,000 horsepower of electric energy in the Colorado River.

JAIL SENTENCE FOR DRUG SELLERS, PLAN

MARYSVILLE, Yuba Co., Dec. 24.—Announcement that he would go to Sacramento early next week to arrange with the State Legislative council to prepare a bill providing prison sentences for drug sellers was made by Assemblyman Edward Lewis of this city.

Lewis, after making a study of the drug situation from figures furnished him by District Attorney Maxwell and police officers here, has come to the conclusion, he said, that the present system of fines for selling the opiates must be abolished if the evil is to be dealt with.

Armed with these statistics, which show, according to Lewis, a great increase in the use of drugs here, he will go to the legislature determined to secure the passage of his measure.

"We must go after the people who are making the profit out of the sale of drugs, if we are to stop this traffic. The present system of fines is futile," Lewis declared.

Lewis also expressed the opinion that further steps should also be taken by the state to care for and cure, if possible, the thousands of drug addicts now believed to be in California.

DEEP SNOW ASSURES BIG WATER SUPPLY

ANGELES CAMP, Dec. 24.—Snowfall in the vicinity of Big Trees and eastward to the Sierras will be permanent this year and heavy, making certain an ample water supply for all purposes in 1921, according to residents here who have visited near the summits.

The recent storms are laying a heavy coating on the mountains and the frosts following have packed the drifts making the spring and summer water supply certain.

NEW WAGE SCALE ON FRESNO CO. RANCHES

FRESNO, Dec. 24.—A new scale of wages for laborers and pruners has been announced by the Valley Fruit Growers' association. Ranch laborers and teamsters will receive \$2.50 per day and board. This is a reduction of 50 cents a day. The hourly wage scale is to be 50 cents an hour for American and 45 cents for Japanese, Hinnos and Mexicans.

GREATEST CHRISTMAS IN CITY HERE

Merry Christmas

Q With a pledge of good faith and with good will toward all men, The Register extends the season's greetings to every one of its thirty thousand readers.

If The Register in the year that is passing has spoken the right word for the community in which it exists; if it has been fair and reasonable in all its dealings; if it has stood out boldly for a square deal and human rights; if it has done its duty as it was encountered; if it has lent its hand to make your measure of happiness more complete; then it has fulfilled the function which its management believes it should. If it has in some measure failed in its duty, it faces the new year with a determination to improve each opportunity as it presents itself.

Happy New Year

PASTORS JOIN IN MESSAGES WISHING EVERYONE IN SANTA ANA TRULY JOYOUS, MERRY CHRISTMAS

Pastors of Santa Ana today joined in preparing messages wishing the men, women and children of Santa Ana a merry and a joyous Christmas.

"I wish you a merry Christmas," said one pastor. In the messages of the pastors Santa Anans were reminded again of the true origin and meaning of Christmas—Christ's natal day—and were asked to celebrate the day in the beauty of its spiritual sense, as well as in a material way.

"Peace on earth, good will toward men," the pastors said, should be the spirit in the heart of every citizen, for it is such a spirit, and acts based on such a spirit, that insures true happiness and makes the joyousness of Christmas day, and of all other days, a reality.

That Santa Anans have not overlooked this side of Christmas is shown by the fact that on all sides hands reached out to the less fortunate, that they might be enabled to celebrate the day in the same manner and spirit as all other citizens. If there were cases that were overlooked, it was only because Santa Anans, individually, or through their fraternal or civic organizations, had failed to learn of them.

Many are the obscure homes that were made merry by the arrival of various gifts—gifts sent in the spirit of the covenant: "I wish you a merry Christmas."

Christmas messages prepared by pastors of Santa Ana follow:

"A MERRY CHRISTMAS"
 By the Rev. J. A. Stevenson
 Pastor of the First Presbyterian Church

How easy to say it! How well worth saying! Let us sing it, say it, write it and dream it. Give this message a wireless momentum that will carry it to every home and heart.

Let us not make it too easy. This wish may be shallow, superficial, invertebrate. Shall we not make the wish a prayer? "Prayer is the soul's sincere desire." Sincerity puts will into a wish.

"I wish you a Merry Christmas" ought to constitute a sacred covenant. The Christ wished that this world might be full of joy. He willed it, and to that end gave all that He had and gave Himself, that the wish might be fully realized.

In His Name let us say it; let us wish it and let us effectively will it for all mankind.

CHRIST'S BIRTHDAY
 By the Rev. J. A. Wailes
 Pastor of the Spurgeon Memorial Church

Methodist Church
 The birth of Christ is the world's birth of faith, hope, love, peace, joy and prosperity.

He saves our souls, minds, bodies, business, nation, race and world from sin, which is "the transgression of the law" of our being, and "missing the mark."

He saves to the uttermost man and thing; for "rightness, peace and joy" constitute His Kingdom.

"Glory to God in the highest, on earth peace, good will toward men," comes from giving ourselves fully to Him, being born from above, as He was born from below.

May we give Him ourselves, and receive the "all things" of I Corinthians 3:21,22.

PEACE
 By the Rev. John Oliver
 Pastor of the First Methodist Church

"Sweet peace, the gift of God's love," is multiplying in the desires and hearts of men. The Pageant of the Pilgrims pictured our spiritual inheritance to the community; and the Spirit of God through the Divine child makes it all possible to us.

The Christmas good-will makes a fine atmosphere in which we are conscious of the Fatherly goodness, and in which real brotherhood glows and grows. Only in such brotherhood will the world regain its normal life.

Let us be as wise as the "men from the east" and invest our gifts and ideals in some child of today, that the glory of God may blend in the coming generations.

THE WORLD NEED OF CHRISTMAS
 By the Rev. Perry Frederick Schrock
 Pastor of the First Congregational Church

Christmas ought to be an event, and not merely the commemoration of an event. It is a beautiful and helpful custom to celebrate the Birth of the Christ. The stories of the Wise Men, the Shepherds, the Angel song and the Manger Cradle will never grow old. But the world is needing something more than a refreshing of the memory. It needs experience. It needs a new birth of the Christ Spirit—the spirit of gentleness, of unselfishness, of love, of justice, of righteousness.

This is the real Christmas—to have the Christ Spirit born anew in the life of the world. The world's greatest need is just such an experience. Christmas of Nineteen Hundred and Twenty prove to be such an experience.

CHRISTMAS AND THE CHILDREN

By the Rev. Otto S. Russell
 Pastor of the First Baptist Church
 Christmas without children is unthinkable. Just now they have a large place in our thought. They help us keep alive the spirit of others, of cheer, appreciation, serving, joy, good will and peace.

For a child, shepherds watched, wise men journeyed, angels sang and Bethlehem's star shone. Because of this child, men have been compelled to think of all things in relation to the child.

For children men have labored, founded schools, built factories, made laws, erected churches and maintained Sunday schools. Mothers have toiled, made clothing, candies, cookies, purchased story books and toys.

Should the children suddenly vanish, where would be our Christmas joy? Should all thoughts of the Christ vanish from the earth, where were our Christmas? All hail, then, to the Christ Child.

A CHRISTMAS GREETING
 By the Rev. J. L. Parks
 Pastor of the United Brethren Church
 To all who read, and to all who live, we wish a merry, merry Christmas!

When the cornerstone of the foundations of creation was laid, "The morning stars sang together, and all the sons of God shouted for joy!"

But when Jesus Christ, the world's Redeemer was born, the angels sang and in their great joy, "desiring to look into these things," bowed each other on the cloud-heights above Judea's hills till the heavens broke open and the glory of the Lord dazzled the eyes of the watching shepherds, and then burst upon their ears the first Christmas anthem from angelic choir, "Peace on earth and good will to men!"—peace, good will, music; there three—and the greatest of these is—?

May this glad Christmas bring to all this peace, "Peace that passeth understanding." May the spirit of good will live largely in all our hearts. May the Christmas carols be sweeter than ever before! Let gladness and happiness sway all hearts! Sing praises, be joyful in your business and home life, radiate joy and gladness and helpfulness.

If all Christians would give this Christmas time as God gave, there would be no cold and starving orphans, not a helpless widow to sit down and weep with her little tots on Christmas eve because there is nothing with which to fill the little stockings; not an aged man or woman, old and neglected and liv-

ing in dread of the "poorhouse." God give us the Christmas spirit, as God views the Christmas spirit.

DAY OF WONDROUS JOY
 By the Rev. W. L. H. Benton
 Rector of the Church of the Messiah
 The holy season of Christmas brings not only the happiness and cheer of making others happy—not only the pleasure of giving to those whom we love, to those whose friendship we value, to those whose need—but it brings to us the inner happiness of the hope and assurance that comes from God's great gift of His Son.

In the rush of our busy life it is well to stop and think of what Christmas means: It means that nineteen centuries ago, there came a day of wondrous joy to a small group in Bethlehem; to Mary, the Holy Mother; to Joseph; to their friends in that ancient city; to the Shepherds who "watched their flocks by night."

It means that this joy, like every true joy, has radiated through all that time into the hearts and homes of countless millions, because it is the joy of God's great giving. It means that God has, through His Son, shown us what our homes should be, that our lives should be less selfish, how we can brighten, not only for a day, but through life, the lives of those with whom we come in contact, letting the Christ child be born in us this Christmas Day.

COMMUNITY TO GATHER AT PARK TOMORROW EVENING FOR SINGING CELEBRATION

Orange county tomorrow will celebrate the biggest Christmas in its history. Christmas joy is to reign. The spirit of the Lord Arisen will fill the hearts of the people of the county.

The children were all a-tingle today in anticipation of Christmas tree celebrations, Christmas dinners, and, most of all, Christmas stockings. And grown-ups everywhere were smiling their pleasure. There was none too old to feel the thrills of Christmas-tide.

While every home will have its own celebrations and its own joys, the entire community is to join tomorrow evening in a demonstration of appreciation for the privilege of living in this land, blessed by the fact that 'Christ Is Born.'

In Santa Ana there is an established custom for a community gathering at Birch Park on Christmas night. Constantino, Harold Proctor—these great singers and others have joined with Santa Anans in great song festivals in Christmases gone by. Tomorrow night the great Italian singer, Giacchino Ribaud, will be the star whose wonderful voice will grace the community gathering at Birch Park.

The program for tomorrow evening is to start at 6:30 o'clock. Lights will be turned on to illuminate one of the giant deodars of the park. There is to be singing in which the voice of every person present will be raised in familiar Christmas songs.

The program will include singing by Santa Ana's musical leaders. Their efforts alone would serve to bring a great assemblage of lovers of song.

Giacchino Ribaud, though Italian born, has endeared himself to the American people not only by reason of his success as a singer but because of his patriotism as shown in many ways and on many occasions. During the World War he served in the army of the United States. Since his discharge he has sung in many American hospitals, cheering men who were wounded or who became ill while in the service of their country.

Ribaud began his career as a singer in the cafes along the waterfront of Naples, Italy. His wonderful tenor voice brought him recognition. He came to America and studied under Walter Damrosch in New York city. His first visit to the Pacific Coast was when he came as a member of Andreas Dippel's Grand Opera company.

His strong tenor voice is admirably suited for out-of-door solo work. Critics say that he sings with great ease and emotion.

Clarence A. Gustlin, president of the Santa Ana Musical association, which planned the community gathering tomorrow evening, said today that all of the preliminary arrangements have been satisfactorily concluded.

Gustlin will be the director of tomorrow evening's program, with Earl Fraser as accompanist.

The program follows:

Selection orchestra
 Invocation the Rev. J. A. Wailes
 Silent Night! Holy Night! High School glee clubs
 A Christmas Message the Rev. Paul Wright
 Solo—The Holy City Signor Ribaud

Joy To The World—community.

Holy Night Adams
 Sextette from Ebel Music Section, Mrs. H. M. Sammis, Mrs. T. A. Winbiger, Mrs. Harry Hayes, Mrs. F. W. Rawlins, Mrs. Tom Willis, Mrs. C. F. Crose, Miss Ruth Armstrong, accompanist.
 Hark! The Herald Angels Sing—community
 Solo—The Star Signor Ribaud

America—community.

Benediction the Rev. W. L. H. Benton

ing in dread of the "poorhouse."

God give us the Christmas spirit, as God views the Christmas spirit.

the angels' song be wafted to us amid the still hours of meditation, and may the heavenly visitants enter the chambers of our souls, fill them with His glory, and break the silence of our hearts until all fear shall be removed and only peace and good will remain.

TRUSTEES TALK SKY LINE DRIVE PROJECT

FULLERTON, Dec. 24.—"Big Stuff" was the order of business at the meeting of the city council last night.

A real start was made on the long discussed Skyline Drive and it is probable the suggestion of Mrs. E. S. Richman may be adopted, that this fine scenic boulevard be constructed as a memorial to the 270 Fullerton boys who went into service during the World War.

W. T. Brown asked that a survey of the proposed drive be made at once and the engineer was requested to do this without delay. Endorsing Mr. Brown's request were Mrs. Nancy Moore, Mrs. Richman, Mrs. E. I. Fuller and Mrs. Brown.

As soon as the work is completed, the work of securing the right of way will be started.

ALLEGED DESERTER IS CAPTURED BY MARSHAL

ORANGE, Dec. 24.—Tom Manzo, a Mexican, alleged to have deserted from the army, was taken into custody here by Marshal Jemison and a private soldier from Fort McArthur, San Pedro, sent here to locate him.

He was taken in charge by the soldier who took him to Fort McArthur, last night. It is not known from where Manzo deserted.

Manzo's whereabouts were spilled to Marshal Jemison by a Mexican. He was found in a tent on South Tustin street which housed several other Mexicans.

Folks—can you really afford to own a car when you can rent one without driver for as little as \$3 a day? 7½ cents a mile. See Copson, 411 W. 4th. Phone 1426.

Christmas Candies—25c lb. "Ye Old Fashioned Chocolate," 40c lb. at the Lion Kandy Kitchen, 211 W. 4th.

Since the angels announced the glad tidings, time has not failed to roll h's ceaseless course, but the message remains true and fresh. At this season let the melodies of

A Visit From Santa Claus

"Twas the night before Christmas
 When all through the house
 Not a creature was stirring,
 Not even a mouse.

The children were nestled
 All snug in their beds,
 While visions of sugar-plums
 Danced in their heads.

As I drew in my head
 And was turning around,
 Down the chimney St. Nicholas
 Came with a bound.

He spoke not a word,
 But went straight to his work,
 And filled all the stockings;
 Then turned with a jerk,

And laying his finger
 Aside of his nose,
 And giving a nod,
 Up the chimney he rose.

But I heard him exclaim,
 Ere he drove out of sight,
 "Happy Christmas to all,
 And to all a good night."

SALVATIONISTS GIVE BOUNTIFUL CHEER TO SANTA ANA'S NEEDY

More than fifty baskets filled with Christmas cheer were distributed today to the needy of Santa Ana from the home of the Salvation Army adjutant, Mrs. E. C. Smith, 633 North Birch street. A committee of Elks delivered the baskets.

Responding to the Salvation Army's call for vegetables, canned fruits, walnuts, packages of sugar, coffee, tea, cereals and other articles of food, Santa Anans donated liberally, and the baskets were filled to overflowing. Every basket contained an ample portion of roast pork.

Those on the committee of Elks who delivered the baskets were: L. A. Schiesinger, H. J. Plumb, A. W. Mollica, William McKay, F. H. Taylor, C. T. Johnson, the Rev. W. L. H. Benton, R. C. McMillan, H. A. Gardner, F. W. Opp, W. C. Collins, F. B. Hyde, C. H. McCausland, W. R. Gordon and W. C. Jerome.

Twenty-five men of the Salvation Army industrial home will be served Christmas dinner at a luncheon restaurant. At the Salvation Army tent a Christmas night entertainment and Christmas tree will be held. Candy, apples, nuts and oranges will be distributed.

FOOTBALL TEAMS PROMISE FAST GAME

Fast football will be the feature of the game between the alumni and the high school teams tomorrow afternoon at 2:30 o'clock on the high school grounds. The snappy practice of the past few days has rounded out a team of alumni men who will give Coach Morrison's next season squad one of the toughest set-to's they have had this year.

All players on both teams have observed training and will abstain from turkey and cranberries until after the sound of the pistol and the dust of the mighty struggle has cleared away.

"Monty" McFadden, of Pomona college football fame, will referee the game, and Gene Trago, member of this year's Junior college aggregation and a half on the Stanford freshman eleven last year, will umpire.

The alumni will boast such men as Catland, an all-Southern end on the Caltec team, Taylor, LeBar, the Dungan brothers, Arkley, Jerome, Tyrrell, Raney and other stars. Captain "Bart" Cock, captain-elect of the high school team, will not play, because of injuries received earlier in the season. The high school will lose another good man, Clarence Brown, this year's captain, who will play with the alumni. Brown will graduate this spring.

The purpose of the game will be to boost the \$6000 fund for the erection of adequate bleachers on the grounds. The present wooden structure is unsightly and not large enough to take care of the crowds.

Candies, priced right, milk chocolates, bitter sweet and a large variety of real Christmas candy at the Dragon.

HUNDREDS OF KIDDIES GUESTS OF ELKS AT CHRISTMAS TREAT

Spreading Christmas cheer among the youngsters of Santa Ana, the Elks this afternoon entertained between 1800 and 2000 children with a big Christmas tree program. The affair progressed without a hitch, and was a success from start to finish.

Long before 1 o'clock, when the affair was to start, throngs of eager, bright-eyed children collected about Elks' hall, waiting for the doors to open.

The password was "twelve years old or younger" as the youngsters thronged into the hall following the Santa Claus. They were admitted in groups of 600 to the entertainment program that the "Bills" had prepared.

A Punch and Judy show held the attention of the children and vied with the huge Christmas tree for popularity honors.

Santa Claus, in the person of Raymond J. Schulte, stood on the stairs and greeted the youngsters as they filed out from the hall following the entertainment. Lining the foot of the stairs were from twelve to fifteen Elks, who handed to each child a bag of candy, an apple and a toy.

Joy reigned supreme. The children were of course excited, but the men who kindly offered to usher them made sure that none of them had been forgotten.

The big tree, glistening with silvery tinsel and decorations, was "a thing of beauty and a joy forever." Its gorgeousness was reflected on the face of every child present.

The Officers, Directors and Employees of

The First National Bank and The Farmers and Merchants Savings Bank wish you a Happy Christmas Season

COMMERCE BODY TO VOTE UPON TAXATION

More than fourteen hundred commercial and industrial organizations throughout the country, including the Santa Ana Chamber of Commerce, were asked today by the Chamber of Commerce of the United States to register in a national referendum vote their views on the question of revision of federal taxation laws.

The vote is on fifteen proposals for radical changes in methods of levy, advanced by the National Chamber's Committee on Taxation, which made its report after nearly a year's study of the subject.

The propositions upon which the chamber's members are being asked to express their views are:

"I—The excess-profits tax should be repealed.

"II—Revenues now derived from the excess-profits tax should be obtained mainly from taxes on incomes.

"III—There should be excise taxes upon some articles of wide use but not of first necessity.

"IV—Should a sales tax be levied instead of the taxes mentioned in proposals II and III above?

"V—Should a sales tax be levied in addition to such taxes as mentioned in proposals II and III above?

"VI—Members voting in favor of question IV or question V above are asked to indicate below the type of sales tax they advocate:

(a) A General Turnover Tax.
(b) A Limited Turnover Tax.
(c) A Retail Sales Tax.

"VII—There should be a moderate and graduated undistributed earnings tax on corporations.

"VIII—Each individual stockholder of a corporation should pay his own normal tax.

"IX—Income from any new issues of securities which may lawfully be made subject to federal tax should be taxable.

"X—American citizens resident abroad should be exempt from the American tax upon income derived abroad and not remitted to the United States.

"XI—Profits arising from sale of capital assets should be allocated over the period in which earned and taxed at the rates for the several years in the period.

"XII—An exchange of property of a like or similar nature should be considered merely as a replacement.

"XIII—Net losses and inventory losses in any taxable year should cause redetermination of taxes on income of the preceding year.

"XIV—Ascertainment by the government of any tax based on income should precede payment.

"XV—Administration of income taxation should be decentralized."

HELPED DEVELOPMENT OF OIL IN ENGLAND

PASADENA, Dec. 24.—R. A. Cattell, son of H. G. Cattell, of 1045 East Orange Grove avenue, is home after a two and a half years' absence overseas, on a visit to his parents here. Mr. Cattell went with the 66th Engineers from Oklahoma to England at the beginning of the war, and was discharged after service in France. He at once went to England and entered the employ of S. Pearson & Son, the great bankers and commercial pioneers in many lands. Cattell is a mining engineer and while in England assisted in developing the first oil well that England has.

"When the trials for oil began in England many scientists said that there was none and some offered to drink all the exploiters could find," said Cattell. "They have a large quantity to drink now, although the supply is not very large when compared to the United States."

From England he went to Algiers where he was one and a half years engaged in oil development. He believes that there will be oil developed in quantities later on. There is a small amount now. The prospects indicate that there is oil in quantities, but it has not yet been brought to light.

When he returned to New York in November, Cattell discussed a trip to West Africa on an oil exploration, but decided to remain in the United States and came on home for the present, preferring a season in America. He expects to visit with his parents, allowing the future to develop as it may, and to enjoy himself here while awaiting eventualities.

The oil in England, Cattell said, was developed under the auspices of the Ministry of Munitions near Chesterfield. There is a small yield with prospects of greater. The Algiers fields look good.

Before going abroad Cattell was an engineer in the United States Bureau of Mines, being stationed in Oklahoma. He is a University of California graduate of 1916.

CAL. LEADS NATION IN NUT PRODUCTION

SACRAMENTO, Dec. 24.—California with a production of 50,000,000 pounds of English or persian walnuts, leads the Nation in this industry, agricultural authorities of the State University declare. Acreage planted to walnuts in California is outranked only by citrus fruits, plums, prunes and peaches.

Rapid increase in plantings of walnuts in the northern part of the state bids to take away the past supremacy held by the southern part of the state, with a figure of 90 per cent production for California. Contra Costa and Santa Clara counties during the last year have seen the building of large packing houses for walnuts.

Thirty per cent reduction in walnut prices, recently voted by the Walnut Growers' Association, is expected to stimulate the daily use of this product, it was stated today.

To aid in the extension of this important industry the College of Agriculture of the University of California is now offering a course on walnut culture, described in its circular No. 13, and available upon application, it has been announced.

FAMOUS PIANIST DIES
BOSTON, Dec. 24.—Mrs. Annie N. Baldwin, a pianist, who had been associated with many musical celebrities, died here. She was a sister of the late Lillian Nordica and was her accompanist on many concert tours.

GOVERNOR ACCEPTS JUDGE'S RESIGNATION

FRESNO, Dec. 24.—Judge H. Z. Austin yesterday received a formal acceptance from Governor William D. Stephens of his resignation as judge of the superior court in Fresno county. In his message to the judge the governor felicitates him on his long and valuable service to the county. Judge Austin will formally retire on January 3, 1921.

PROTECTION FOR FORESTS PLAN OF FORESTER

WASHINGTON, Dec. 24.—A demand is growing on the part of the wood-using industries and the public at large for a national policy of forestry which will insure adequate future supplies of timber and other forest products, according to Chief Forester W. B. Greeley. Figures gathered by the Forest Service this year, his annual report states, showed the extent of the depletion of the nation's forests, and have served to focus attention on the fact that the country is short of growing forests and that something must be done at once. The acute shortage and skyrocketing prices of lumber and wood products in the year also contributed to the growth of the movement.

Urging National Program
The Forest Service is advocating a program based on the conviction that the problem is national and not local, and must be handled as such.

Nation-wide protection from forest fire for all classes of forest land, Col. Greeley states, is the first and most essential step. It is his belief that the police powers of the states offer the best means of enforcing reasonable requirements against forest destruction.

The expense of fire protection, the Forester says, should be borne jointly by the landowner and the public. He holds that Federal legislation is needed to provide for a comprehensive plan of co-operation with the states in fire prevention and the development of forestry practice, and the extension of the national forests through purchases, through the inclusion of other timberlands now in Federal ownership and through exchange.

Much Timber Left
There are still large quantities of timber in the United States, the report states, but they are not in the right places. More than 60 per cent of what is left lies west of the Great Plains, far from the bulk of the country's population, agriculture and manufacturing. The country is taking about 26 billion feet of wood from forests each year and is growing only 6 billion.

"We have used up our forests without growing new ones," says the report. "At the bottom of the whole problem is idle forest land. The United States contains 326 million acres of cut-over or denuded forest containing no saw timber; 81 million acres of this amount have been completely devastated by forest fires and methods of cutting which destroy or prevent new timber growth."

"The area of idle or largely idle land is being increased by from 3 to 4 million acres annually as the cutting and burning of forests continues." These facts, together with the steadily increasing distance between the average saw mill and the home builder, "have had a vital bearing on the cost of lumber, which during the year reached a prohibitive figure for many uses and checked the building of homes which is so urgently needed."

CALIFORNIA LEADS
IN ONION GROWING

BERKELEY, Dec. 24.—California is one of the leading states in the production of onions, with a record of 2000 carloads shipped out of the state and raising 300,000 sacks of these vegetables, according to statistics compiled by Dean Walter Mulford of the College of Agriculture of the University of California.

At 7½ cents per mile, 5 people can travel for less than bus, train or street car fare, not to say anything about the added conveniences and comfort in going and coming when and where others don't go. When taking your next day's cutting, remember Copson rents cars without drivers.

RUSSIAN SOVIET TOTTERING TO FALL, REPORT

LONDON, Dec. 24.—Every week or so London's colony of Russian Anti-Bolsheviks, Czarist nobility and refugees, bourgeois welcomes a new member, fresh from exciting experiences in frontier running and bearer of new tales of the imminent collapse of the Kremlin "spider's web." Their stories of internal conditions in Red Russia replenish optimism in Wrangelite, Kerensky, and Russian Liberation Commissions, and stir hope anew in the virtually intact but stranded diplomatic machinery of the former Russian governments.

About once a month a courier from Moscow or Petrograd reaches London bearing briefly written narratives of events and gossip to the exiles. These reports are always highly interesting and frequently bring to light big stories of happenings that have failed to reach the outside world. More often they are the unimpassioned detail of terrible incidents and colorless description of horrible conditions. The latest "White Russian Newspaper" has just reached London, smuggled out of Russia by a fleeing professor from a Petrograd university.

Lenine to Move
The professor does not wish his name disclosed, as he was forced to leave his wife and daughter in Russia and fears reprisals. The reports are apparently written by persons on the inside of the Soviet regime, as forecasts of events are often faithfully given.

"Lenine will soon move the seat of Soviet government from Moscow to Petrograd," says the latest report, "as the more destitute population of Petrograd is less liable to attempt an uprising."

Recently birch bark shoes were issued to four regiments leaving Moscow for the Wrangel front. The troops mutilated and demanded leather boots. They surrounded the Kremlin, but were overcome by detachments of Lettish soldiers. Every twentieth man was shot.

"Bolsheviks have arrested two thousand officers, including several high staff officers."

"The anniversary of the Bolshevik government passed quietly. Demonstrations were attended only by Red Guards and sailors and those by orders. No private workers or others were present."

"Because of lack of fuel all bathing establishments are closed, people not having baths in their flats are given a coupon which entitles them to take a bath in any flat they desire."

Receive Food as Pay
"Professors and artists now receive wages in foodstuffs. Hence they are better fed than most of the population. The army ration is sometimes allowed brain workers. The cost of food coupons has increased from 1200 rubles to 2800. No food can be obtained without a food coupon, except at the illicit markets, where it costs five times the general prices. The Norwegians have given scientists, artists and professors a present of one-fourth pound rice, one piece of soap and one herring each. The gifts were deeply appreciated."

A dispatch from Petrograd says: "Food situation grows worse. Peasants either have nothing to send to the cities or refuse to do so. Reported here South Russian peasants shooting commissars, seizing lands and fighting guerrilla warfare. Tchitcherlin has sent a commission south to get facts. Lettish detachments are well fed and pampered. Chinamen are used only for executioners."

At 7½ cents per mile, 5 people can travel for less than bus, train or street car fare, not to say anything about the added conveniences and comfort in going and coming when and where others don't go. When taking your next day's cutting, remember Copson rents cars without drivers.

BOARD TO DISCUSS BUILDERS' WAGES

FRESNO, Dec. 24.—The wage adjustment board, composed of an equal number of union members and employers engaged in the building trades, yesterday met and issued a statement that a meeting would be held next Tuesday, when the matter of revised wage schedules will be taken up in accordance with the agreement under which the board operates.

UP-STATE NEWS

FRESNO.—Unemployed men of the city who want work will find Superintendent Chapin of the street department ready with a job for them today. The street superintendent will meet with the unemployed at 12:30 in the rear court yard of the city hall, and they will be provided with picks and shovels and be put to work repairing the streets.

BAKERSFIELD.—The Monolith Cement Plant, located near Tehachapi, fifty miles east of Bakersfield, and employing more than 100 men, will close down tomorrow, according to advices from Tehachapi. It is believed the shut-down will be only temporary. The plant, which furnished the cement for the Los Angeles aqueduct, has been running under privet ownership since last August, employing at times as many as 200 men.

FRESNO.—Work of measuring the Kings river and canal system, which was begun in 1918 by the state water commission, was approved yesterday at a meeting of the Associated Canals of Kings River held in the city hall at Fresno. The meeting voted unanimously to continue the work, which includes gathering engineering data on the available water, the amount used, and the amount which will be deposited for storage in the Pine Flat reservoir.

MERCED.—The movement to have Merced county employ a county engineer in lieu of a county surveyor was given sharp impetus at a meeting of the farm center at Eschscholtz when a two to one vote of the proposition was given. It is reported that the farm bureau of the county has undertaken to circulate petitions in the county and secure the necessary number of voters, which is 25 per cent of the total vote polled at the last election for governor.

TULARE.—Prices paid for hogs at the bi-monthly auction held under the auspices of the California Farm Bureau Marketing association today were in the neighborhood of \$2 per hundred pounds in excess of eastern quotations and \$1 more than the San Francisco delivery price. The choice lot of porkers offered at the sale brought \$11.35 and while this is high as compared to the price prevailing at other points, it is the lowest paid for auctioned swine in Tulare in several years.

SACRAMENTO.—Licensed dentists in California have no legal right to sign a death certificate. This ruling was made today by Attorney General U. S. Webb in an opinion to the state board of dental examiners. The opinion was in reply to a question by the board touching on this point.

SAN FRANCISCO.—The state railroad commission today denied an application by the railroad carriers within the state to reclassify preserved fruits in less than carload lots. The decision virtually was a denial to grant an increase in intrastate rates for preserved fruits. Commissioner Loveland in rendering the decision said that the rates for these commodities have reached a level which had brought about curtailment of railroad traffic in these commodities.

IDENTIFICATION SLIPS WASHED UP BY SURF

LONG BEACH, Dec. 24.—A leather identification folder, containing photographs, two discharges from the United States army and a treasury department insurance policy, was found on the beach early this morning. The folder and its contents bear marks of having floated some distance.

It is not known whether the owner of the papers is a suicide, whether he was drowned accidentally or whether the folder fell overboard a vessel.

One of the discharges bears the name of Adolph R. Haime, a corporal in I company of the First Hawaiian infantry, and is dated July 12, 1919. The serial number is 3,558,231. The corporal's insurance number is 4,063,616 and is dated September 1, 1918.

The other discharge is that of Martin Pedrusa, Second Hawaiian infantry. The date is February 2, 1919, and the serial number is 3,555,082.

Corporal Haime was born in Kabanlagan, Negros, Philippine Islands. He is, according to the description in the discharge, 5 feet tall, has brown eyes and black hair and was 22 years old when he enlisted.

The man to whom the other discharge was issued was born on the island of Leyte, the Philippines. He has black eyes and hair, is 5 feet, 2 inches, and was 29 years old at the time of his enlistment.

With the discharges are letters in the Tagalog language to someone, probably the sweetheart of the man addressed as Corporal Haime. The writer speaks of a cousin attending Columbia university in New York.

In the folder are pictures of a Filipino man and a girl and under the latter is engraved an inscription, "Forgotten you will never be."

The papers were turned over to the American Legion secretary here and an effort will be made at once to learn from the Hawaiian government the identity of the men described.

BOX FAST DRAW
SACRAMENTO, Dec. 24.—Al Walker and Felix Villamore, San Francisco bantams, fought a draw here last night in the main event of a benefit boxing show. Bobby Ertie, Oakland, beat Jimmy Roche of San Francisco.

News From Orange County Towns

GIVE PROGRAM AT HUNTINGTON BEACH

HUNTINGTON BEACH, Dec. 24.—A very good Christmas program was given last Friday at the Huntington Beach grammar school. The stage had been transformed into a woodland scene and in the center stood a huge Christmas tree, gaily decorated and laden with gifts. The orchestra gave several very good numbers. Much of the program was given by the children of the lower grades. A clever number was "Little Jack Horner" by the second grade in which twelve little boys came marching in, each with his chair. After seating themselves in a row across the stage, twelve tiny misses came carrying bowl, spoon and napkins. The napkins were tied about the boy's necks and they proceeded to sample Jack's pie from the bowls. "But oh, my!" they ate too much and they left the stage singing and groaning, "What a sick boy am I!"

A minuet was beautifully danced by Misses Pauline Prescott and Eunice Lawton of the upper grades. A group of the larger girls clad in Scotch costumes danced the Highland Fling and the peasant girls danced the peasant dance. The last number was a day in toyland. Seated about at the foot of the large tree were toys of all descriptions, teddy bears, tin soldiers, rabbits, frogs, baby dolls, Jack in the box and many others. Little Miss Edna Warner, dressed as a queen of the Fairies, with the wave of her wand brought the toys to life and each did its little stunt. Then they were quickly changed to toys again, and Margaret Shank came out to play with her Christmas toys; dolls were made to dance, frogs to jump, Jack in the box to jump out when a certain spring was touched. At the last came the sticks of peppermint candy to sing their little song of Christmas cheer.

Santa was there and distributed candy to all the children. A wonderful Christmas Story was told by Miss Foote, an instructor at Illinois University. A most enjoyable evening was spent at the home of Mr. and Mrs. A. S. Walling on Fourteenth street, when a party of young people helped Shell Walling celebrate his seventeenth birthday. The evening was spent playing games. Several musical numbers were given with Miss Amelia Karnes at the piano and Loomis Johnson accompanying with the clarinet. Dainty, light refreshments were served. Those present were: Wallace Minters, Edward Haskell, Charles Hazard, Donald G. Christ, Dwight Clapp, Lester Lewis, Loomis Johnson, Richard Maher Horace Walling, Ruby Lewis, Opal Lewis, Alice Maher, Amelia Karnes, Dorothy Lowe, Laura Brown, Agnes Gothard, Lucile Radford, William Adams and Shell Walling.

There will be a Christmas Cantata at the Methodist church given by the three churches, Christian, Baptist, and Methodist, Sunday evening, December 26. Music will be given by a choir of 33 voices under the direction of Dr. E. E. Ewing.

Huntington Beach will have a community Christmas tree this year at the intersection of Main street and Walnut avenue on Christmas Eve.

Santa Claus will be given by a group of children during the afternoon visiting the different stores and will be at the tree in the evening. A good program has been arranged.

The C. J. C. bus line will open a stage terminal Monday on Third street north of Orange with an entrance on Main street. The streets are so congested with traffic at the Obarr Drug store on Main street that the old stand cannot be used during the day. There will be stages running to the oil fields, beginning Monday.

Mr. and Mrs. Carl Olson have moved to San Fernando. Their many friends regret that they have left the beach but are glad to know that they will still keep their home here.

Mrs. Frank Catching has been appointed an assistant at the City Hall to help care for the rapidly increasing business of the city.

Mr. and Mrs. B. B. Bray have returned from Foster Lake, Saskatchewan, Canada. Mr. and Mrs. Bray have spent the last three winters here in California. Last year Mr. Bray invested heavily in property in Huntington Beach and was much surprised at the great activity in the city at the present time.

Mr. and Mrs. John Weinschenk and daughter, Fae, former residents of Huntington Beach, now of Eagle Rock were visitors in this city, Wednesday.

Real estate activity has increased the past week in Huntington Beach. The Standard Oil company has bought the apartment house at the northeast corner of Nineteenth street and Ocean avenue. The Union Oil company has bought property across from the San Pedro Lumber company for rooms for their employees. The property values are steadily increasing.

At a meeting of city trustees, the subject of erection of permanent fire buildings were discussed. It is hoped that such buildings will be erected on the two blocks owned by the city, bounded by Main, Fifth, Sixth, and Orange avenues.

There are at present thirty one oil derricks in Huntington Beach. They spring up like mushrooms over night. One year ago last Friday the first Standard Oil well was spudded in the Huntington Beach field. In that year great changes have taken place in our city. Renewed life, everything goes with a vim, investors are hunting realty men instead of realty men looking for investors. Real estate values are increasing daily.

Santa Ana, Dec. 11th, 1920.

The Annual Meeting of the shareholders of The American National Bank of Santa Ana, Calif., for the election of Directors for the ensuing year, will be held in the bank parlors at Fourth and Broadway, in the City of Santa Ana, on Tuesday, January 11th, 1921. Polls open from one to three P. M.

The American National Bank, John G. Mitchell, President

INVITE COMMUNITY TO ENTERTAINMENT

COSTA MESA, Dec. 24.—Mrs. Harry Clark and members of her Sunday school class at the Costa Mesa Sunday school were busy today putting finishing touches on the decorations in the church, where Christmas exercises are planned to be held at 7:30 o'clock tonight.

An interesting program of Christmas music, plays, recitations and other features with a big Christmas tree and bags of candy for the children, will be the features of the evening. Santa Claus is scheduled to appear on the scene at the proper moment and will have something of interest for the younger children.

An interesting number on the program is promised by the Primary department. Other numbers will consist of solos, Christmas pantomime of the life of Christ and other features.

Everyone is invited to attend the Christmas exercises at the church tonight.

PLAN ANAHEIM AS DISTRICT CENTER

ANAHEIM, Dec. 24.—A movement is under way by which it is hoped to bring the seat of government of the San Diego district of the So. Cal. conference of the Methodist church to Anaheim and possibly result in the name being changed to Anaheim district with very much desirable advertising resulting to the city throughout the southland.

The plan, in which Dr. James Allen Geissinger, of the Methodist White Temple, is much interested, hinges upon obtaining suitable living accommodations here for Dr. H. I. Rasmus, superintendent of the San Diego district, who now resides in Long Beach. Anaheim, it is pointed out, would be much more centrally located for his work which calls him to Methodist churches all over So. Cal.

"Dr. Rasmus is a mighty fine man," declares Dr. Geissinger. "I followed him to the pastorate of the First Methodist church of Long Beach and that's a pretty good way to find out what kind of a man he is. His coming to Anaheim would add prestige to the city and we might be able to get the title of the district changed to Anaheim district. We would at least attempt that."

ROAD CONTRACTOR BUYS HOLT "CAT"

Richards Brothers' Machine works report the sale of a Holt Caterpillar "45" tractor to B. R. Ford, a local road building contractor. Ford has been a user of a Holt caterpillar "18" tractor for a number of years. When he entered the market for a more powerful outfit he decided on a Holt "45" because of the satisfactory service obtained from the smaller type.

He is breaking in his new machine on the four and one-half miles of macadam road between Orange and Villa Park, which he has taken the contract to remove.

"Many communities that do not have tractors or horses for their own work employ tractor power on contract for road grading, hauling supplies for road building, carrying material for bridges, sprinkling roads, clearing away snow in the winter, pulling scarifiers to rip up old roads, etc.," said M. S. Richards.

"Caterpillars are favored for this work because they won't damage the finished road surface or subgrades, because they can turn short in narrow places and because they give steady, reliable service. Road work can generally be done in 'off' seasons—when other work is slack. The profits you make from that work are thereafter clear velvet."

Richards Brothers are proprietors of the tractor and machine works operated for a number of years as the Mayo Machine works, the change in the name of the concern having recently been made.

JOHN DOUGHTY

TORONTO, Ont.—John Doughty, former private secretary to Ambrose J. Small, missing Toronto theater millionaire, has been brought back to Toronto following his arrest in Oregon City, Ore. He is alleged to have confessed to the theft of \$100,000 in Canadian victory bonds, missing after his disappearance last December.

MISSIONARY MEET DRAWS GOOD CROWD

COSTA MESA, Dec. 24.—The Women's Foreign Missionary Society met Tuesday afternoon at the home of Mrs. N. O. Melott with thirty present.

Mrs. Willard Melott led devotionals and Mrs. J. R. Smith had charge of the study book. Two vocal solos, appropriate for the occasion, were given by Mrs. H. J. Clark, and Miss M. E. Stearns sang "Nobody Ever Told Me of Jesus." Mrs. L. O. Bostwick and Miss M. E. Stearns sang "My Master's Work First."

Miss Olive Cunnard, a returned missionary from Godhara, of the Bombay district in India, was present.

A Missionary Christmas tree was hung with bags made of bright ribbons, lace, beauty pins and many other things dear to the heart of the girls of India.

There were eighteen of these bags, also a quilt of brilliant colors given by the Missionary society to Miss Cunnard.

Miss Cunnard will return to her school in India in April and will take these bags and quilts to present to the girls of her school on the occasion of a birthday celebration.

Two very interesting letters were read, one from Rosario, Argentina, S. A., where the missionary society has pledged a sum helping support a school for girls.

A letter from Mrs. Mattha Drummer from Malanje, Angolia, Africa. This letter stated that the receipts of the local office for December will run at least one-third more than for the same period a year ago.

The increase is based on outgoing mail and the sales of stamps in connection with it, which includes, of course, the parcel post business.

A year ago the December receipts were about \$1900, while this year the total will approximate \$3000, which can be explained only by the fact that more people are tributary to the office.

The office has just passed the peak of the outgoing Christmas business.

The incoming flood of Christmas mail and packages will reach its height Friday but patrons of the office need have little fear of missing anything which is coming to them.

There is an extra force of men at work and the men are also working extra hours and before work is stopped each night, the day's accumulation of mail, both in and out, is practically out of the way.

So don't take up the time of the postoffice folk with continual inquiries about some package you are expecting. When it arrives, you will get it. The postal folk are as anxious to get it off their hands as you are to get it.

Be on hand Monday at Leipsic's Pre-Inventory and End-of-the-Month Half-Price Sale.

ORANGE CITY PLANS FLOAT AT PASADENA

ORANGE, Dec. 24.—The city of Orange will have a float in the Rose Tournament parade at Pasadena on New Year's Day.

A committee representing various civic bodies is now at work in the preparation of the float and it is assured a creditable showing will be made.

The committee, E. W. Jardine, Mrs. Mark C. Myers, W. G. Hagen and H. G. Upham, has employed J. P. Van Houten an experienced designer, to prepare the float, which will be mounted on a truck chassis donated by Damewood & Garroway for the purpose.

Mr. Van Houten has had extended experience in such work, having designed many floats for the Villed Prophet parade held annually in St. Louis.

The design under preparation is featured by a large heart constructed of oranges and greenery, set in an artistic lattice work structure. The whole will be covered with flowers and will bear the legend "Heart of Orange county."

There are eighteen of these bags, also a quilt of brilliant colors given by the Missionary society to Miss Cunnard.

Miss Cunnard will return to her school in India in April and will take these bags and quilts to present to the girls of her school on the occasion of a birthday celebration.

METHODISTS PLAN LARGE EXTENSIONS

FULLERTON, Dec. 24.—Plans of immense importance to the Methodist church and the city of Fullerton were approved at a meeting of the local conference, presided over by District Superintendent Dr. H. J. Rasmus.

These plans involve the use of the entire block on the east side of Pomona avenue, between Commonwealth and Amerige avenue, for church purposes. The church now owns 125 feet on the Amerige-Pomona corner, across the street from the present church building.

The remainder of the Pomona avenue frontage has been acquired, including 100 feet in the middle of the block and the Hezmalhalch home on the corner of Commonwealth and Pomona.

The plans also provide for the erection of a parsonage on the Hezmalhalch property, the erection of a Sunday school building in the middle of the block, fronting on Pomona and, eventually, a reinforced concrete church building on the Amerige-Pomona corner which will take care of the requirements of a church of 1000 members.

S. W. McCulloch, who has been one of the moving spirits in these forward-looking plans, told the conference that Fullerton is destined to be the educational center of Southern California. He pointed out that the high school and junior college are now the equal of any in the state and will soon be the greatest of their kind in the world.

He calls attention to the fact that there is but one Southern California and one Fullerton, with its multifarious resources and favorable location and he made a deep impression with his argument that now is the time to lay the foundation for a religious and community social center which will bear fruit now and during the years to come.

Many build homes in national forests

WASHINGTON, D. C., Dec. 24.—That the use of the National forests for recreational purposes is increasing rapidly and bids fair to rank third among the major services performed by the National forests, with only timber production and stream-flow regulation taking precedence over it, is the statement made by Col. W. B. Greeley, head of the Forest service, in his annual report.

Many summer homes are being erected on the National forests by private individuals, and the use of forests for other forms of out-of-door recreation was greater during the past year than ever before.

The summer home business promises to become an important source of revenue, Col. Greeley points out. On the Angeles forest in Southern California, for example, a total of 1329 permits for summer residences and commercial resorts were, he says, in effect at the close of the past fiscal year. The revenue from this one item amounted to approximately \$22,000. It is believed that within a few years the revenues obtained from the various recreational settlements within the Angeles forest will pay the entire cost of protection and administration.

IN SANTA ANA CHURCHES

Where to Go and What to Hear

The Church of the Messiah (Episcopal)—Sunday, Dec. 26. Holy Communion at 7:30 a. m. Holy Communion and confirmation at 11 a. m. Evening prayer and sermon 7 o'clock. The Rt. Rev. W. B. Stevens, Ph. D., will make his first official visitation to the Parish of the Messiah, for the administration of the rite of confirmation, on the 11 o'clock service. Christmas services at the Church of the Messiah (Episcopal) will be as follows: The mid-night celebration of the Holy Communion at 11:45 p. m. Friday, Christmas eve, the Holy Communion on Christmas day at 9 a. m.

Trinity Lutheran Church—Corner East Sixth and Brown streets, Wm. Schmook, pastor. Christmas eve a children's service will be held in which the children in song and recitations will set forth the wonderful grace accorded us in the birth of our blessed Savior, who came to us in the lowly stable at Bethlehem, becoming poor for our sake, so that we, through his poverty, might become rich. Services begin at 6:45 p. m. English services Christmas day, 10:45 a. m.; English services Sunday, 10:45 a. m.; German services Sunday, 7:30 p. m.; Sunday school, Sunday, 9:30 a. m.; English services New Year's eve, 7:30 p. m.; English services New Year's day, 10:45 a. m.

Prayer and song service Wednesday at 7:30 p. m.

TOMORROW'S SUNDAY SCHOOL LESSON

PRACTICAL NOTES PREPARED FOR THE REGISTER

By Cal. Ogburn

Lesson for Dec. 26. Review.

wise maxim has crept into our language from somewhere, which is that, "The proper study of mankind is man." To illustrate: An ambitious young man derives great benefit from studying the lives of those who have been successful. How did the business man amass a fortune? By what means did the physician build up so large and lucrative a practice? What were the factors in a noted playwright's life and work that brought him both fame and fortune? Why is "Edison" a name to conjure with? But it would be still more appropriate to say that "The most important study of mankind is the Man of Nazareth."

Looking back over a three months' study of the life and times of Jesus Christ, what do we see that made him so great, and ever greater now and pre-eminently successful? For instance: Why does a statue of the Christ of that long-ago stand today on the boundary line between two formerly warring South American states, that pledged to each other peace in the name of "The Christ of the Andes"—and are keeping that pledge? Why not, in his place, a statue of Bolivar, Balboa or Columbus? Because it was Christ who said, "My peace I give unto you. Not as the world giveth, give I unto you." And it was he who gave to men and nations the Golden Rule of conduct: "All things whatsoever ye would that men should do unto you, do ye even so to them."

We see, too, in looking back, that one of the guide-posts erected by Christ to direct men along the road to real success, is called "Industry." He was no idler. So busy was he, as "he went about doing good," that even now he sets the pace for the most active men. Jesus led such an energetic, purposeful life that it is not comparable to any other, and so he set an example for all men to follow. "Do it now" came into use with him. What he did, in going from place to place healing the sick and teaching men great truths about themselves and God, requiring endless patience. And this also he exemplified: that patient, painstaking perseverance is necessary to the achievement of any worthy purpose. And just here many fail. Though with a worthy aim, they do not begin to have the patience of Jesus Christ. Little by little Jesus fitted eleven men, out of the multitudes that heard him, to carry forward his work of establishing the kingdom of heaven in the hearts of men. It was a great task that he set for himself, but, with ceaseless patience he went on with it to success. Had he failed, what would have been the condition of the world? Who has imagination vivid enough to paint the picture of the moral chaos in which men would now exist, had not Jesus patiently persisted till his work was done? And what if you become impatient at the task of world betterment that you have given yourself to do—and, petulantly, "Just quit trying?" Now, after these three months with Christ

in his school of patience and perseverance, are you going to "quit?" Still another thing that stands out prominently in the lessons of our quarter is the courage of Jesus. And courage of the very highest moral type is essential to the consummation of your life work; for it is impossible to succeed without opposition. As well expect a kite to rise on a calm day. The sooner any man notes well this fact, and prepares himself accordingly, the better his chances for flying his "kite" to the highest of all! Pharisaic hypocrisy and Herodian hate made not a whit's difference with Christ. He had the courage of his convictions and bravely went on with his work. It is the only way. The messenger boy who would stop to throw stones at every dog that barked at him would very soon find himself with no job but that of "dog-pelter!" Have the courage to face your opponents, as Jesus did, but waste no time with them in worse than useless controversy. Do nothing that is not directly conducive to the achievement of your one great object in living, i. e., the betterment and consequent happiness of the world. This the lessons of the quarter distinctly teach.

UNIVERSITY REGENTS FAVOR JR. COLLEGES TO CHECK CROWDING

SACRAMENTO, Dec. 24.—To relieve the University of California of its present overcrowded condition, establishment of junior colleges throughout the state has been proposed to the regents by members of the State Budget Board.

The university farm at Davis will be put on a junior college basis, it was announced by President Barrows. The first two years of the farm course will be given at Davis and the last two years of the course will be given at Berkeley, he said.

This system Barrows claimed would provide the student with ordinary farm knowledge during his freshman and sophomore years, and give him pathology, bacteriology and several other scientific courses during his junior and senior years at Berkeley.

Stanley Benedict, of the State Board of control stated that the junior college system should be explained so that all parts of the state could enjoy more immediate college facilities. He said, that with the present rate of increase, centralization was making the university top heavy.

BLTYHE.—M. Caupau, representative of the L. K. Small and Associated Fruit company, has departed after a visit of several days to the valley. He succeeded in signing up 200 acres of grapes, mostly of Thompsons and Malagas. It is said that orders for nearly 200,000 cuttings have been placed.

LOST—Boston Terrier. Answers to name of "Boots". Notify Dr. Pullin,

go to Church Sunday

The spirit of Christmas is abroad in the land. Good cheer abounds. Optimism, kind thoughts, loving kindness, peace. No matter about the little grievances that have worried us during the year—they are forgotten today and our hearts are filled only with kindly thoughts. Happiness. What is the Spirit of Christmas? Is it not merely the spirit of Christ? Are we not happy at Christmas time because we are living for a few brief days fully up to the teachings of the Savior of the world? Then why not live the remainder of the year in the same way and be continually happy? The spirit of Christmas is with us today because, and solely because, the churches of the world have kept it alive. In this good work the churches need YOUR support. Go to Church Sunday—and every other Sunday in the new year.

First Presbyterian Church

Sixth and Sycamore

Bible School at 9:30

C. E. Society at 6:00

Mr. H. E. Hoare Will Preach

7:00 p. m., subject

"THE BABE OF BETHLEHEM THE COMING KING"

And shall call his name Jesus. He shall be great, and shall be called the Son of the Highest; and the Lord God shall give unto him the throne of his father David; and he shall reign over the house of Jacob forever. Luke 1 31-33.

AT SIXTH AND FRENCH

THIS SAME JESUS IS COMING AGAIN

The FIRST ADVENT is a PRECIOUS MEMORY, the SECOND ADVENT is a GLORIOUS HOPE.

Many indications evidence the very soon Coming of our Lord. May we all be found "so doing" when we hear the shout from the sky.

Wm. E. Blackstone

in Morning Star Calendar Jan., 1921.

A few in Israel were expecting Him, a few wise men read the signs of their times aright, when He came the first time. Many, today, the world around are expecting His return. What would it mean to you?

SPECIAL ANNOUNCEMENT—NOTE THE DAY

Dr. John H. Hunter of the Bible Institute of Los Angeles will preach at the EVENING SERVICE Sunday, Jan. 2d.

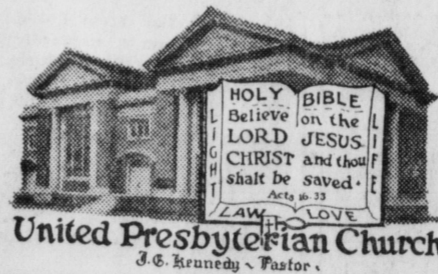

NEW BEET DISEASES THREATEN CROP IN UTAH-IDAHO FIELDS

SALT LAKE CITY, Dec. 24.—A new sugar beet disease in the form of a root rot, that seriously threatens the beet fields of Utah and Idaho has been discovered during the past summer, according to statements just sent out by Dr. B. L. Richards, associate botanist of the Utah agricultural experiment station. Officials of the Utah-Idaho Sugar

company, while admitting the presence of the disease, declared that steps are being taken to combat it, with strong hopes of curbing it before serious inroads can be made on the beet raising centers.

According to Dr. Richards seriousness of the disease may be seen by the fact that all evidence regarding the disease up to date indicates that the malady once present in a field seems to live for an indefinite time.

Candies, priced right, milk chocolates, bitter sweet and a large variety of real Christmas candy at the Dragon.

United Presbyterian Church
J. G. Kennedy, Pastor.

TONIGHT—Christmas Entertainment.

SABBATH MORNING—Things Which Abide.
